

Third Access, Participation, Eligibility and Certification Study Series (APEC III)

National Agricultural Statistics Service (NASS) Review Comments on 2nd Revised Draft OMB Package

1. Please explain how the total number of responses in Part A, Section 3 is calculated. I can't tell if you should be including the cognitive interview responses or not.
2. I noticed references Provision 1, 2, and 3 schools starting with Appendix B documents, but these types of schools are not defined anywhere. Also there is no mention of these types of schools in your sampling process.
3. In Tables 3-1 and 4-1 in Appendix N, you reference FNS regions, but they are not defined anywhere in the docket. Please define these regions.
4. For those documents provided in English and Spanish, I have only reviewed and made comments on the English versions.
