FORM APPROVED
OMB NO. 0920-0134
Expiration Date: 07/31/2015

APPLICATION FOR REGISTRATION AS AN IMPORTER OF NONHUMAN PRIMATES*

Organizational Name: _____

Telephone No.: _____

() _____

Address: _____

Person Responsible for Required Record Keeping and Reporting: (please print) _____

1. Estimated number of nonhuman primates to be Imported or to be received within 31 days of importation in the period covered by this registration: _____

2. Number of nonhuman primates Imported or received within 31 days of importation in the previous 2-year period* _____

3. Animal Holding Facilities:

a. Attach sketch of facility indicating rooms or area where newly acquired nonhuman primates are held and the relationship of these rooms or areas to offices, laboratories and other animal rooms in the same building.

b. Air handling procedures in rooms or areas where newly acquired primates are held:

(1) Air pressure in holding rooms is higher than same as or lower than in adjacent corridors and other immediately adjoining areas.

(2) Is the incoming air filtered? Yes No

If yes, specify the type of filtration: _____

(3) Is exhaust air filtered? Yes No

If yes, specify the type of filtration: _____

c. Usual number of animals per cage in the quarantine area: Prosimians _____ Old World Species _____ New World Species _____ Great Apes _____

d. Waste disposal procedures for animal feces: _____

For dead animals: _____

4. Are newly acquired nonhuman primates held in rooms or areas separated from other animals? Yes No

If yes, what is the usual length of the quarantine period? _____ days

5. Tuberculin-testing procedures:

a. Are newly acquired nonhuman primates routinely tuberculin-tested? Yes No

b. Is the quarantine period usually based on tuberculin-test results for the group as a whole? Yes No

If yes, the group must pass at least _____ successive negative tests at _____ day intervals before release from quarantine.

c. Type tuberculin used: OT PPD

d. Dose of tuberculin per test: _____ mg or _____ TU

e. Route of tuberculin inoculation: intradermal other

f. Site of tuberculin inoculation eyelid abdomen other

g. The tuberculin-test sites are routinely examined at 24 hours 48 hours 72 hours post-inoculation. (Check all applicable time intervals)

6. Are animals that die during the initial period necropsied? Yes No

If yes, estimated percentage of animals necropsied: _____ %.

7. Is entry to the area where newly acquired nonhuman primates are held restricted to only those personnel who are essential to its operation? Yes No

9. Is a veterinarian retained to provide or supervise care of nonhuman primates? Yes No

Name: _____ Telephone No. _____

Address: _____

9. Personnel Health Program

a. Are all employees who work directly with nonhuman primates given a pre-employment physical? Yes No

b. Routine interval between periodic post-employment physical examinations of employees who work directly with nonhuman primates:

_____ months Not Done

c. Are all employees given a pre-employment tuberculin test? Yes No

d. Routine interval between tuberculin tests of employees after employment: _____ Months Not Done

e. Are serum specimens from employees obtained and stored for reference diagnostic purposes?

Pre-employment: Yes No While employed: Yes No

Interval between collection of reference sera while employed is: _____ months.

f. Is a physician retained to supervise health care programs? Yes No

Name: _____ Telephone No. _____

Address: _____

10. Assurance Statement

As a condition of registration I, (we) assure the Director, Centers for Disease Control and Prevention that I (we) will import live nonhuman primates into the United States only for bona fide scientific, educational, or exhibition purposes. I (we) shall not subsequently sell, resell, or otherwise distribute the nonhuman primates to any other person or organization without clear evidence that these animals will be used solely for bona fide scientific, educational, or exhibition purposes. I (we) understand that "nonhuman primates" are defined as all nonhuman primates of the Order Primates including but not limited to animals commonly known as monkeys, chimpanzees, orangutans, gorillas, gibbons, apes, baboons, marmosets, tamarins, lemurs, and lorises.
