

PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Program

Web-Based Application for Clinical Care Measure

Online Data Entry Tool Content for FY 2017 and Subsequent Years

(NQF 1822) External Beam Radiotherapy for Bone Metastases Overview

This measure reports the percentage of patients, regardless of age, with a diagnosis of painful bone metastases and no history of previous radiation who receive external beam radiation therapy (EBRT) with an acceptable fractionation scheme.

Final web design is subject to change as it is dependent on web real estate and IT capacity. Changes will not impact the data elements but rather the application layout.

Accessing the Web-Based Application

The user enters their assigned User ID and password to access the secure site and information for their individual hospital.
