

Introduction for respondents:

- The Office of the Assistant Secretary for Planning and Evaluation (ASPE) in the U.S. Department of Health and Human Services is sponsoring this study to better understand work requirements in human services programs and identify best practices in the administration of work requirements. ASPE has contracted with Mathematica Policy Research to conduct this study.
- The Exploring Measurement of Performance Outcomes and Work Requirements in Programs Promoting Economic Independence (EMPOWERED) study will include site visits to three states administering work requirements in three programs: Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), and public housing programs.
- We are meeting with state and local agency staff around the state this week. The goal of today's conversation is to learn more about your role and to how work requirements and policies operate under your program. Your perspective and insights on these issues will be very helpful to the study.
- I want to let you know that your participation in this interview is voluntary, and your responses will be kept private to the extent provided by law. We will not share the information you provide with anyone outside of the research team, including your supervisor and state or federal -level staff. You may refuse to answer any question and may stop the interview at any time. There will not be any penalties if you refuse to participate in part or full.
- We will take notes over the course of the interview so that we can remember the information we collect. We will use this information in our reports, describing the range of responses expressed by staff. The reports might list the names of organizations that contributed information, but we will not quote you or anyone by name or title. However, because of the relatively small number of organizations participating in the study, there is a possibility that a response could be correctly attributed to you.
- I expect our conversation will take about [60/90] minutes. First, do you have any questions for me about the project in general or what we will be discussing today?

Note to Interviewers:

- Prior to the visit, tailor the discussion guide to each site and respondent. Eliminate questions that will not be asked of each type of respondent. Also, note the formal names of each program in the state, any acronyms used, and the terminology appropriate for each respondent to understand the questions.
- Throughout the discussion guide, we use employment and training or (E&T) to refer generally to employment and training (education) activities and services, we are not referring to a specific program.
