SUPPLEMENTARY INFORMATION:

Abstract: The Secretary of the United States Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands and the Outer Continental Shelf (OCS). Under various laws, the Secretary's responsibility is to manage mineral resources production on Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected. ONRR performs the royalty management functions and assists the Secretary in carrying out the Department's responsibilities. We have posted those laws pertaining to mineral leases on Federal and Indian lands and the OCS at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

I. General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in an amount or value of production from the leased lands. The lessee is required to report various kinds of information to the lessor relative to the disposition of the minerals. Such information is generally available

within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling such minerals. The information collected includes data necessary to ensure that production is accurately valued and that royalties are appropriately paid.

II. Information Collections

This ICR covers unique reporting circumstances, including (1) cross-lease netting in calculation of late-payment interest; (2) a lessee's designation of a designee; and (3) Tribal permission for recoupment on Indian oil and gas leases.

A. Cross-Lease Netting in Calculation of Late-Payment Interest

Regulations at § 1218.54 require ONRR to assess interest on unpaid or underpaid amounts. ONRR distributes these interest revenues to States, Indian Tribes, and the U.S. Treasury based on financial lease distribution information. Current regulations at § 1218.42 provide that an overpayment on a lease or leases may be offset against an underpayment on a different lease or leases to determine the net payment subject to interest when certain conditions are met. This process is called cross-lease netting. The payor must demonstrate that a cross-lease netting exception exists by submitting production reports, pipeline allocation reports, or other similar documentary evidence. This information is necessary in order for ONRR to determine the correct amount of interest that the lessee owes and to ensure that we collect in full all monies owed to the Federal government.

B. Designation of Designee

The Royalty Simplification and Fairness Act (RSFA) defines a "lessee" to include both the owner of operating rights and the owner of record title. Under RSFA, owners of operating rights are primarily liable, and owners of lease record title secondarily liable for making royalty and related payments on Federal oil and gas leases (see 30 CFR 1218.52). It is common however, for a payor other than a lessee to make these payments. When a payor makes payments on behalf of a lessee, RSFA section 6(g) requires that the lessee designate the payor as its designee and notify ONRR of its designation in writing. We designed form ONRR-4425, Designation Form for Royalty Payment Responsibility, to request all the information necessary for lessees to comply with these RSFA requirements when choosing to designate an agent to pay for them. We require this information to ensure proper mineral revenue collection.

C. Tribal Permission for Recoupment on Indian Oil and Gas Leases

Overpayments on Tribal Indian leases may be recouped against royalties or other revenues owed in a month under other leases for which that Tribe is a lessor. To do so, lessees must comply with regulations at 30 CFR 1218.53(b), allowing only lessees with written permission from the Tribe to recoup overpayments on one lease against a different lease for which the Tribe is the lessor. The payor must provide ONRR with a copy of the Tribe's written permission.

III. OMB Approval

We are requesting OMB's approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge the duties of the office and may also result in the loss of royalty payments. Proprietary information submitted is protected, and there are no questions of a sensitive nature included in this information collection.

displays a currently valid OMB control number.

V. Request for Comments

Section 3506(c)(2)(A) of the PRA requires each agency to " * * * provide

60-day notice in the **Federal Register** * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *.”

Agencies must specifically solicit comments to (a) evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information that ONRR collects; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting “non-hour cost” burden to respondents or record-keepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods that you use to estimate (1) major cost factors, including system and technology acquisition, (2) expected useful life of capital equipment, (3) discount rate(s), and (4) the period over which you incur costs. Capital and startup costs include, among other items, computers and software that you purchase to prepare for collecting information and monitoring, sampling, and testing equipment, and record-storage facilities. Generally, your estimates should not include equipment or services purchased (i) before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Federal government; or (iv) as part of customary and usual business, or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you, without charge, upon request. We also will post the ICR at http://www.onrr.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: ONRR will post all comments, including names and addresses of respondents at <http://www.regulations.gov>. Before including Personally Identifiable Information (PII), such as your address, phone number, email address, or other personal

information in your comment(s), you should be aware that your entire comment (including PII) may be made available to the public at any time. While you may ask us, in your comment, to withhold PII from public view, we cannot guarantee that we will be able to do so.

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Partial Consent Decree Under the Clean Water Act

On July 19, 2017, the Department of Justice lodged a proposed Partial Consent Decree with the United States District Court for the Northern District of Ohio in the lawsuit entitled *United States v. The City of Cleveland Heights, Ohio and The State of Ohio*, Civil Action No. 17-cv-1517.

The United States filed this lawsuit under the Clean Water Act. The United States' complaint alleges that the City of Cleveland Heights, Ohio violated the Clean Water Act and the City's stormwater permit by allowing discharges of untreated sanitary sewage into local streams flowing to Lake Erie. The complaint seeks injunctive relief and civil penalties. The State of Ohio is named as a defendant solely to satisfy Section 309(e) of the Clean Water Act 33 U.S.C. 1319(e).

The Partial Consent Decree requires Cleveland Heights to perform a comprehensive study of its sewer system and submit a plan, for EPA approval, to eliminate sanitary sewer overflows. The agreement also requires certain early action projects to reduce sanitary sewage overflows and improvements to the City's sewer system operations. The Partial Consent Decree does not resolve the United States' claims. The schedule for implementing the approved plan and

the civil penalty for the City's violations will be established separately.

The publication of this notice opens a period for public comment on the Partial Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. The City of Cleveland Heights, Ohio and The State of Ohio*, D.J. Ref. No. 90-5-1-1-10457. All comments must be submitted no later than thirty (30) days after the publication date of this notice.
