#### **VS FORM 17-146 IINSTRUCTIONS**

Complete a separate submission form for each submitter, collector, collection site, and collection date combination. If including more than one page, include the page number of total pages submitted (e.g., 1 of 3).

# Also complete VS FORM 17-131 (BSE Surveillance Data Collection Form) for each animal listed on VS 17-146.

# 1. BSE REFERRAL NUMBER

The number must be a unique identifier for the submission that will not be duplicated in any other BSE surveillance submission. The BSE Referral Number is used to associate the BSE Surveillance Submission Form to the BSE Surveillance Data Collection Form in the database.

The suggested format for the BSE Referral Number consists of 13 or 14 alphanumeric characters.

- First two characters are the 2-letter postal abbreviation for the state;
- Next two to three characters are the collector's initials (First, Middle, Last);
- Next eight characters are the collection date in the MMDDYYYY format; and
- Last character is a letter representing which submission form of the day it is for the collector (i.e., A=First)
