

MMSEA Section 111 MSP Mandatory Reporting

Interim Record Layout Information for:

- **Liability Insurance (Including Self-Insurance)**
- **No-Fault Insurance**
- **Workers' Compensation**

The complete Section 111 User Guide for Liability Insurance (Including Self-Insurance), No-Fault Insurance, and Workers' Compensation is in process.

Note: This is a revised version of the Interim Record Layout dated November 17, 2008. The version date is shown in the footer on the cover page for each version. Note that the date for this version, as shown below, is December 5, 2008.

Revisions:

- Added detailed information regarding: “Who Is the Responsible Reporting Entity (RRE)?”, “General Rules for Agents”, “High Level File Submission Rules”, and “What Triggers Reporting?”
- Revisions to the File Layout include but are not limited to the following: elimination of some fields associated with no-fault insurance; delay in requiring the reporting of certain fields; re-naming the “Policyholder” information as “Self-Insurance” information (with the applicable information requested only for self-insurance); and optional use of free form text for a limited time period in lieu of providing the WCIO Nature of Injury Code and the WCIO Cause of Injury Code and either an ICD-9 Code or WCIO Body Part Code. See page 15 for a more detailed listing of revisions to the File Layout.

Material in this document includes:

PRA Disclosure Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is **0938-1024 (Expires 04/30/2021)**. The time required to complete this information collection is estimated to average 5 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: CMS, 7500 Security Boulevard, Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850. ****CMS Disclosure**** Please do not send applications, claims, payments, medical records or any documents containing sensitive information to the PRA Reports Clearance Office. Please note that any correspondence not pertaining to the information collection burden approved under the associated OMB control number listed on this form will not be reviewed, forwarded, or retained.

MMSEA Section 111 Mandatory Reporting - Liability Insurance (Including Self-Insurance), No-Fault Insurance, Workers' Compensation

Overview

Section 111 of the Medicare, Medicaid, and SCHIP Extension Act of 2007 (MMSEA) (P.L. 110-173), adds new Medicare Secondary Payer (MSP) mandatory reporting requirements for group health plan (GHP) arrangements at 42 U.S.C. 1395y(b)(7) and for liability insurance (including self-insurance), no-fault insurance, and workers' compensation (sometimes collectively referred to as Non-Group Health Plan, Non-GHP or NGHP) at 42 U.S.C. 1395y(b)(8).

The entities responsible for complying with the reporting requirements for Section 111 are referred to as Responsible Reporting Entities or RREs. This document provides information on the file layouts that will be used by RREs for complying with the reporting requirements at 42 U.S.C. 1395y(b)(8) for liability insurance (including self-insurance), no-fault insurance, and workers' compensation. You must use the applicable statutory language *in conjunction with* "Attachment A – Definitions and Reporting Responsibilities" to the Supporting Statement for the Paperwork Reduction Act (PRA) Notice published in the Federal Register. See Appendix A. in order to determine if you are an RRE for purposes of these new provisions. The statutory language, the PRA Notice and the PRA Supporting Statement with Attachments are all available as downloads at www.cms.hhs.gov/MandatoryInsRep. "Attachment A" to the Supporting Statement provides details on definitions and exactly which entities must report.

Complete instructions and requirements will be published at a later date in the MMSEA Section 111 Liability Insurance (Including Self-Insurance), No-Fault Insurance, and Workers' Compensation User Guide, and this user guide will be available as a download on the dedicated Section 111 Web page at www.cms.hhs.gov/MandatoryInsRep when completed. RREs are encouraged to visit this site often for updates on Section 111 reporting requirements.

The purpose of the Section 111 MSP reporting process is to enable CMS to pay correctly for Medicare covered items and services furnished to Medicare beneficiaries by determining primary versus secondary payer responsibility. Section 111 requires RREs to submit information specified by the Secretary in a form and manner (including frequency) specified by the Secretary. The Secretary requires data for both Medicare claims processing and for MSP recovery actions, where applicable. RREs will submit information electronically on liability insurance (including self-insurance), no-fault insurance, and workers' compensation claims where the injured party is a Medicare beneficiary. The actual data submission process will take place between the RREs and the

CMS Coordination of Benefits Contractor (the COBC). The COBC will manage the technical aspects of the Section 111 data submission process for all Section 111 RREs.

Note: For purposes of RRE submissions, the term “**claim**” is used to refer to the overall claim for liability insurance (including self-insurance), no-fault insurance or workers’ compensation rather than a single claim for a particular medical item or service.

Section 111 RREs are required to register with the COBC and fully test the data submission process before submitting production files. RREs will then be assigned a quarterly file submission timeframe during which they are to submit files. Once in a production mode, RREs will submit their initial files containing information for all liability insurance (including self-insurance), no-fault insurance, and workers’ compensation claims involving a Medicare beneficiary as the injured party where the settlement, judgment, award or other payment date is July 1, 2009, or subsequent, and claims on which ongoing responsibility for medical payments exists as of July 1, 2009, regardless of the date of an initial acceptance of payment responsibility. Subsequent quarterly file submissions are to contain only new or changed claim information using add, delete and update transactions.

The data necessary for the Section 111 NGHP reporting process is documented in the attached record layouts. An RRE electronically transmits a data file to the COBC. The COBC processes the data in this *input file* by first editing the incoming data. Other insurance information for Medicare beneficiaries derived from the input file is posted on the Medicare Common Working File (CWF) by the COBC for use by other Medicare contractors for claims processing and/or passed to the CMS Medicare Secondary Payer Recovery Contractor (MSPRC) for recovery efforts. When this processing is completed or the prescribed time for response file generation has elapsed, the COBC electronically transmits a *response file* back to the RRE. The response file will include information on any errors found, disposition codes that indicate the results of processing, and MSP information as prescribed by the response file format.

Who Is the Responsible Reporting Entity (RRE)?

- 42 U.S.C. 1395y(b)(8) defines a responsible reporting entity (RRE) to be an applicable plan:

“APPLICABLE PLAN- In this paragraph, the term ‘applicable plan’ means the following laws, plans, or other arrangements, including the fiduciary or administrator for such law, plan, or arrangement:

- (i) Liability insurance (including self-insurance).
- (ii) No fault insurance.
- (iii) Workers' compensation laws or plans.”

As stated, you must use the applicable statutory language *in conjunction with* “Attachment A – Definitions and Reporting Responsibilities” to the Supporting

Statement for the Paperwork Reduction Act (PRA) Notice published in the Federal Register in order to determine if you are a “responsible reporting entity” or “RRE” for purposes of these new provisions. The statutory language, the PRA Notice and the PRA Supporting Statement with Attachments are all available as downloads at www.cms.hhs.gov/MandatoryInsRep. "Attachment A -- Definitions and Reporting Responsibilities" to the Supporting Statement provides details on definitions and exactly which entities must report.

CMS is aware that the industry generally does not use the term “plan” or some other CMS definitions such as the definitions for “no-fault insurance” or “self-insurance.” However, CMS is constrained by the language of the applicable statute and CMS’ regulations. It is critical that you understand and utilize CMS’ definitions for purposes of Section 111 when reviewing and implementing Section 111 instructions.

- Third party administrators (TPAs) as defined by CMS for purposes for 42 U.S.C. 1395y(b)(7) & (8) are never RREs for purposes of 42 U.S.C. 1395y(b)(8) [liability (including self-insurance), no-fault, and workers’ compensation reporting] and only act as agents for such reporting. The RRE is limited to the “applicable plan” and may not by contract or otherwise limit its reporting responsibility although it may contract with a TPA or other entity for actual file submissions for reporting purposes. The applicable plan must either report directly or contract with the TPA or some other entity to submit data as its agent. (Where an RRE uses another entity for claims processing or other purposes, it may wish to consider contracting with that entity as its agent for reporting purposes).
- Where an entity is self-insured for a deductible but the payment of that deductible is done through the insurer, then the insurer is responsible for including the deductible amount in the amount it reports as a settlement, judgment, award or other payment.
- Where there are multiple defendants involved in a settlement, an agreement to have one of the defendant’s insurers issue any payment in obligation of a settlement, judgment, award or other does not shift RRE responsibility to the entity issuing the payment. All RREs involved in the settlement remain responsible for their own reporting.
- RRE in bankruptcy – CMS is considering whether or not special provisions must be made for this situation.
- Re-insurance, stop loss insurance, excess insurance, umbrella insurance, guaranty funds, patient compensation funds which have responsibility beyond a certain limit, etc. -- The key in determining whether or not reporting for 42 U.S.C. 1395y(b)(8) is required for these situations is whether or not the payment is to the injured claimant/representative of the injured claimant vs. payment being made to self-insured entity to reimburse the self-insured entity. Where payment is being made to reimburse the self-insured entity, the self-insured entity is the RRE for purposes of

the payment made to the injured individual and no reporting is required by the insurer reimbursing the self-insured entity.

General Rules for the Use of Agents for Section 111 Reporting

- Agents are not Responsible Reporting Entities (RREs) for purposes of the MSP reporting responsibilities for 42 U.S.C. 1395y(b)(7) & (8). However, the applicable RRE may contract with an entity to act as an agent for reporting purposes.
- Agents may include, but are not limited to, data service companies, consulting companies or similar entities that can create and submit Section 111 files to the COBC on behalf of the RRE.
- Registration for reporting and file submission with the COBC must be completed by the RRE. During registration, the RRE may designate an agent. An agent may not register on behalf of an RRE.
- An RRE may not shift its Section 111 reporting responsibility to an agent, by contract or otherwise. The RRE remains solely responsible and accountable for complying with CMS instructions for implementing Section 111 and for the accuracy of data submitted.
- CMS does not sponsor or partner with any entities that can be agents. CMS has not and will not endorse any entity as an agent for Section 111 reporting purposes and has no approved list of agents. Entities that are potential agents do not register with CMS or pay CMS a fee in order to become an agent.

High Level File Submission Rules for Section 111 Reporting

- CMS' COBC will handle the technical aspects for reporting and for the management of all file submissions.
- RRE GHP file submissions may not be mixed with RRE NGHP (liability insurance [including self-insurance], no-fault insurance, and workers' compensation) file submissions.
- An NGHP RRE may include liability insurance (including self-insurance), no-fault insurance, and workers' compensation files in a single submission if it has responsibility for multiple lines of business; however, there is no requirement to do so. If separate files will be submitted by line of business, subsidiary or other reason, then the RRE must register and obtain a Section 111 reporter ID for each file

- An NGHP RRE is to report the assumption or termination of “ongoing responsibility” situations along with the one-time reporting of payments where ongoing responsibility is not assumed.
- The number of submissions per quarter made by a particular NGHP RRE will be a consequence of how many lines of business it chooses to report separately; for a GHP RRE the number of submissions per quarter will be dependent upon how the RRE wishes to split its client base. An RRE may register separately for different lines of business and/or different client bases (including identifying a different agent for data submission for each registration). This could include registering at the parent company level vs. registering at a subsidiary level.
- An agent may not mix data for multiple RRE clients in the agent’s file submission.
- Each registered RRE will be assigned a COBC EDI representative (EDI Rep). The EDI Rep will assist with test and production file exchanges.
- All reporting is to be through electronic file exchanges. CMS has made no plans for direct data entry by RREs. (RREs who believe that their volume is too small to report electronically directly may wish to contract with an agent for file submission.)

General Requirements for File Submission

- Input Claim Files must include properly formatted header, detail and trailer records as defined in the file layouts provided.
- Input Claim Files must be submitted on a quarterly basis, four times a year.
- Files must be submitted within an assigned, 7-day submission period each quarter. File submission timeframes will be assigned after successful registration for Section 111 reporting.
- RREs will be assigned a Section 111 Reporter ID during registration which is to be used on all submitted files.
- Section 111 liability insurance (including self-insurance), no-fault insurance, and workers’ compensation RREs must submit their initial production Section 111 Input Claim File during the fourth calendar quarter (October - December) of 2009 during their assigned submission timeframe.

- RREs must register on the COB Secure Web site (COBSW) by June 30, 2009, and complete testing prior to submission of production files. (The earliest date for registration is May 1, 2009.) After the registration has been processed by the COBC, the RRE will receive an e-mail with a Profile Report. The Profile Report will contain information submitted during registration for verification purposes, the assigned 7-day file submission timeframe, and the assigned Section 111 Reporter ID (RRE ID). The last page of the Profile Report must be signed by the RRE and returned to the COBC before testing can begin.
- Files may be submitted via the COBSW using Hypertext Transfer Protocol over Secure Socket Layer (HTTPS) or Secure File Transfer Protocol (SFTP). As an alternative, RREs with large amounts of data may submit via Connect:Direct (formerly known as NDM) via the AT&T Global Network System (AGNS). To use the AGNS method, RREs must first establish an AGNS account in order to send files directly to the COBC over AGNS. RREs that currently do not have an existing AGNS account should contact one of the well-established resellers of AT&T services to obtain a dedicated or a dial-up access line to the AGNS VAN. ***RREs are encouraged to do this as soon as possible since this set up can take a significant amount of time.***
 - Files submitted via HTTPS or uploaded via SFTP to the COBC secured web site should utilize an ASCII format. Fields within the records are length delimited and all records are fixed length.
 - Files transmitted directly to the COBC mainframe using Connect:Direct will be automatically converted to EBCDIC.
- RREs must implement a procedure in their claims resolution process to determine whether an injured party is a Medicare beneficiary. RREs must submit either the Social Security Number (SSN) or Medicare Health Insurance Claim Number (HICN) for the injured party on all Input Claim File detail records.
- RREs' initial file submissions must report on all claims, where the injured party is/was a Medicare beneficiary, that are resolved (or partially resolved) through a settlement, judgment, award or other payment on or after July 1, 2009, regardless of the assigned date for a particular RREs first submission. This includes resolution (or partial resolution) through one payment obligation (regardless of whether the payment obligation is executed through a single payment, a structured settlement, or an annuity) as well as those situations where there is a responsibility for ongoing medical services.
- RREs must also report on claims for which the RRE still has responsibility for ongoing payments for medical services as of July 1, 2009, regardless of an initial resolution (partial resolution) date prior to July 1, 2009. (See the associated special reporting extension discussed in "What Triggers Reporting" later in this document.)

- If an RRE has accepted Ongoing Responsibility for Medical payments (ORM) on a claim, then the RRE must report two events; an initial record to reflect the acceptance of ongoing payment responsibility and a second (final) record to reflect the end date of ongoing payment responsibility with the corresponding end date reflected in the ORM Termination Date (Field 77). Because reporting is done only on a quarterly basis, there may be some situations in which the RRE reports the assumption of ongoing responsibility in the same record as which a termination date for such responsibility. RREs are **not** to submit a report on the Input Claim File every time a payment is made for situations involving ongoing payment responsibility.
- A Federal Tax Identification Number (TIN) Reference File must be submitted with the Initial Claim File containing records for each plan TIN submitted in Field 50 of Claim File detail records. For those who are self-insured, their TIN may be an Employer Identification Number (EIN) or Social Security Number (SSN) depending upon their particular situation.
- All combinations of Plan TIN and Office Code/Site ID submitted in Fields 50 and 51 of the Claim File detail records must have a corresponding TIN/Site ID combination on the TIN Reference File. For example, an RRE may use only one TIN (123456789) but have two office codes or site IDs; 01 for Workers' Compensation claims and 02 for Commercial Liability Claims. Two records will be reported on the TIN Reference File. One record with TIN of 123456789 and Office Code/Site ID of 01 and a second record with the same TIN of 123456789 but Office Code/Site ID of 02. Different mailing addresses may be submitted on the TIN Reference File for each of these entries. In this example, the RRE would submit 123456789 in Field 50 of each claim detail record, 01 in Field 51 of each Workers' Compensation claim detail record, and 02 in Field 51 of each Commercial Liability claim detail record.
- Subsequent Claim Files do not need to be accompanied by a TIN Reference File unless changes to previously submitted TIN/Office Code/Site ID information must be submitted or new TIN/Office Code/Site ID combinations have been added.
- Subsequent quarterly update files must include records for any new claims, where the injured party is a Medicare beneficiary, reflecting settlement, judgment, award, or other payment since the last file submission. However, if the settlement, judgment, award or other payment is within 45 days prior to the start of the 7-day file submission timeframe, then an RRE may submit that claim on the next quarterly file. This grace period allows the RRE time to process the newly resolved (partially resolved) claim information internally prior to submission for Section 111. For example, if the settlement date is May 1, 2010, and the file submission period for the second calendar quarter of 2010 is June 1-7, 2010, then the RRE may delay reporting that claim until the third calendar quarter file submission during September 1-7, 2010. However, if the settlement date is April 1, 2010, then the RRE must include this claim on the second calendar quarter file submission during June 1-7, 2010. Records not received timely will be processed but marked as late and used for subsequent compliance tracking. A code indicating a late submission was received will be placed

in the first available Compliance Flag (Fields 36 – 45) of the corresponding Claim Response File Detail record.

- Subsequent quarterly update files must include pertinent updates/corrections/deletions to any previously submitted records.
- Quarterly update files must contain resubmission of any records found in error on the previous file with corrections made. No interim file submissions will be accepted.
- If you have no new information to supply on a quarterly update file, you must submit an “empty” Claim Input File with a header record, no detail records, and a trailer record that indicates a zero detail record count.
- E-mail notifications will be sent to the Section 111 RRE contacts after a file has been initially processed and when a response file has been transmitted or is available for download.
- Each detail record on the Input Claim File must contain a unique Document Control Number (DCN) generated by the RRE. This DCN is required so that response records can be matched and issues with files more easily identified and resolved. It can be any format of the RREs choosing as long as it is not more than 15 alpha-numeric characters as defined in the record layout. Most of CMS’ current data exchange partners use some form of a Julian date and a counter as their DCN.
- The COBC will return response files to the RRE within 45 days of the receipt date posted for the input file.

What Triggers Reporting

In general, reporting for purposes of 42 U.S.C. 1395y(b)(8) (vs. 1395y(b)(7)) is somewhat different because coverage for liability insurance (including self-insurance), no-fault insurance, and workers’ compensation situations is incident specific rather than the type of ongoing coverage provided by GHP coverage.

- RREs are to report only with respect to Medicare beneficiaries (including a deceased beneficiary if the individual was deceased at the time of the settlement, judgment, award or other payment). If a reported individual is not a Medicare beneficiary or CMS is unable to validate a particular SSN or HICN based upon the submitted information, CMS will reject the record for that individual. The Applied Disposition Code (Field 25) on the corresponding Claim Response File detail record will indicate the reason for rejection.

- RREs are to report once there has been a settlement, judgment, award or other payment. Notice to CMS of a pending claim or other pending action does not satisfy an RRE's reporting obligations with respect to 42 U.S.C. 1395y(b)(8).
- Records are submitted on a beneficiary-by-beneficiary basis, by type of insurance, by policy number, by RRE, etc. Consequently, it is possible that an RRE will submit more than one record for a particular individual in a particular quarter's submission window. For example if there is an automobile accident with both drivers insured by the same company and both drivers' policies are making payment with respect to a particular beneficiary, there would be a record with respect to each policy. There would also be two records with respect to a single policy if the policy were reporting a med pay (considered to be no-fault) assumption of ongoing responsibility for medicals and/or exhaustion/termination amount as well as a liability settlement/judgment/award/other payment in the same quarter.
 - Joint settlements, judgments, awards, or other payments -- Each RRE reports its ongoing medical responsibility and/or its settlement/judgment/award/other payment responsibility without regard to ongoing medicals. Each RRE would also report any responsibility it has for ongoing medicals on a policy-by-policy basis. Again, depending on the number of policies at issue for an RRE and/or the type of insurance or workers' compensation involved, an RRE may be submitting multiple records for the same individual.
 - Multiple settlements involving the same individual -- Each RRE must report appropriately. There will be multiple records submitted for the same individual but they will be cumulative rather than duplicative. Additionally, if more than one RRE has assumed responsibility for ongoing medicals, Medicare would be secondary to each such entity and would build a separate MSP occurrence in CMS' common Working File for each submission.
 - Re-insurance, stop loss insurance, excess insurance, umbrella insurance guaranty funds, patient compensation funds which have responsibility beyond a certain limit, etc. -- The key in determining whether or not reporting for 42 U.S.C. 1395y(b)(8) is required for these situations is whether or not the payment is to the injured claimant/representative of the injured claimant vs. payment being made to self-insured entity to reimburse the self-insured entity. Where payment is being made to reimburse the self-insured entity, the self-insured entity is the RRE for purposes of the payment made to the injured individual and no reporting is required by the insurer reimbursing the self-insured entity.
 - One time payment for defense evaluation - A payment made specifically for this purpose directly to the provider or other physician furnishing this service does not trigger the requirement to report.

- RREs must report required data as of July 1, 2009, regardless of the date of the RRE's first assigned file submission window. This includes claims pending a settlement, judgment, award, or other payment as of July 1, 2009, or later, as well as claims for which ongoing responsibility for medicals was established/accepted prior to July 1, 2009.
 - Where ongoing responsibility for Medicals has been assumed, the RRE must report two events -- when the responsibility is assumed and when the responsibility is terminated. The RRE does not report specific dollar amounts paid for individual bills for services to these individuals. The RRE will normally have to make two reports for such individuals although it is possible that both events could be reported in a single submission, depending upon the timing of the submission.

Where ongoing responsibility for medicals was assumed prior to July 1, 2009, and continues on as of July 1, 2009, the RRE must report this individual. As RREs may not have collected the necessary data elements for individuals for whom responsibility was assumed prior to July 1, 2009, CMS is permitting RREs to delay reporting for these individuals until the RRE's assigned submission in the third calendar quarter (July – October) of 2010. The extension is intended to allow RREs time to go back and determine the Medicare status of individuals for whom there is pre-existing ongoing payment responsibility which continues as of July 1, 2009. This extension does *not* apply to claims with resolution (partial resolution) dates of July 1, 2009, and subsequent. The extension applies only to claims where the RRE has accepted ongoing responsibility, with the claim potentially subject to further payment as of 7/1/09, but the original resolution (partial resolution) date is prior to 7/1/09. If an RRE has the information that such a claimant is a Medicare beneficiary and the RRE has the SSN or HICN, it is to send the record with its initial file in fourth calendar quarter 2009. If the RRE does not have this information, it may delay reporting on these claims until its third calendar quarter 2010 file submission.

If the individual was not a Medicare beneficiary at the time responsibility for ongoing medicals was assumed, the RRE must monitor the status of that individual and report when that individual becomes a Medicare beneficiary unless responsibility for ongoing medicals has terminated before the individual becomes a Medicare beneficiary.

- Where payment is made pending investigation, the RRE must report this as an assumption of responsibility for ongoing medicals. If responsibility for ongoing medicals terminates upon completion of the investigation, the termination of responsibility for ongoing medicals must be reported.

- Where there is a settlement, judgment, award or other payment with no establishment/acceptance of responsibility for ongoing medicals, the RRE is not required to report for purposes of 42 U.S.C. 1395y(b)(7) & (8) if the individual is not a Medicare beneficiary as of the date which must be reported for the settlement, judgment, award, or other payment.
- RREs must report settlements, judgments, awards, or other payments **regardless of whether or not there is an admission or determination of liability.** Reports are required with either partial or full resolution of a claim.
 - For purpose of the required reporting for 42 U.S.C. 1395y(b)(8), the RRE does not make a determination of what portion of any settlement, judgment, award, or other payment is for medicals and what portion is not. The RRE reports responsibility for ongoing medicals separately from any other payment obligation but does not separate medical vs. non medical issues if medicals have been claimed and/or released or the settlement, judgment, award, or other payment otherwise has the effect of releasing medicals.
 - There is no exception to the reporting requirements for alleged de minimus or “nuisance” settlements, judgments, awards or other payments. (CMS is gathering data related to this issue and will issue instructions if it adopts a de minimus or “nuisance value” exception for reporting purposes.)
 - “No medicals” – If medicals are claimed and/or released, the settlement, judgment, award or other payment must be reported regardless of any allocation made by the parties or a determination by the court.
 - The CMS is not bound by any allocation made by the parties even where a court has approved such an allocation. (The CMS does normally defer to an allocation made through a jury verdict or after a hearing on the merits. However, this issue is relevant to whether or not CMS has a recovery claim with respect to a particular settlement, judgment, award or other payment and does not affect the RRE’s obligation to report.)
 - RREs are not required to report liability insurance (including self-insurance) settlements, judgments, awards or other payments for “property damage only” claims which did not claim and/or release medicals or have the effect of releasing medicals.
 - RREs must report the full amount of any settlement, judgment, award or other payment without regard to any amount separately obligated to be paid as a result of the assumption/establishment of responsibility for ongoing medicals.
- “Date of Incident” prior to December 5, 1980 – The date of incident does not affect the RRE’s reporting responsibilities for workers’ compensation. Medicare has been secondary to workers’ compensation from the inception of the Medicare

program. However, the liability insurance and no-fault insurance MSP provisions were effective December 5, 1980. CMS has determined as a matter of policy that it will not recover under the MSP provisions with respect to liability insurance (including self-insurance) or no-fault settlements, judgment, or awards where the date of incident **as defined by CMS** was prior to December 5, 1980.

Consequently, the RRE is not required to report liability insurance (including self-insurance) or no-fault insurance settlements, judgments, awards or other payments where the date of incident was prior to December 5, 1980.

- For claims involving “exposure”, this means that there was no exposure on or after December 5, 1980, alleged, established, and/or released. If any exposure for 12/5/80 or later was claimed and/or released, then Medicare has a potential recovery claim and the RRE must report for Section 111 purposes.
- Policies or self-insurance allegedly “supplemental” to Medicare -- By statute, Medicare is secondary to liability insurance (including self-insurance), no-fault insurance, and workers' compensation. An insurer cannot, by contract, supersede federal law.
- There is no age threshold for reporting for 42 U.S.C. 1395y(b)(8).
- The geographic location of the incident, illness, injury is not determinative of the RRE’s reporting responsibility as Medicare beneficiaries who are injured or become ill outside of the United States often return to the U.S. for medical care.
- No settlement, judgment, award, other payment and “file is ready to be closed” -- Where there is no settlement, judgment award or other payment, including an assumption of responsibility for ongoing medicals, there is no report required.
 - With respect to responsibility for ongoing medicals, a determination that a case is “closed” or otherwise inactive does not automatically equate to a report terminating the responsibility for ongoing medicals. If the responsibility for ongoing medicals is subject to reopening or otherwise subject to a further request for payment, the record submitted for responsibility for ongoing medicals should remain open. (Medicare beneficiaries have a continuing obligation to apply for all no-fault or workers’ compensation benefits to which they are entitled.) Similarly, if a file is “closed” due to a “return to work” and no additional anticipated medicals, a report terminating the responsibility for ongoing medicals should not be submitted as long as the responsibility for ongoing medicals is subject to reopening or otherwise subject to an additional request for payment.
 - For liability insurance (including self-insurance) each new payment obligation must be reported as a separate settlement, judgment, award, or other payment. Note: Where a payment obligation is satisfied through a structured settlement

or purchase of an annuity, there is a single report with respect to the total amount of the obligation.

- Mass torts or Multi-District Litigation (MDL) – CMS is seeking input from the industry and will work with the industry regarding the most efficient way for reporting to occur in such situations. Reporting is required, but CMS recognizes that it may have to issue special instructions for such situations.

NGHP File Layout Pages

Changes made since November 17, 2008 posting:

- Input Claim File record length increased to 2220 bytes.
- Document Control Number (DCN) increased to 15 bytes (Claim Detail Field 2, Claim Auxiliary Field 2 and Claim Response Field 2).
- Fields on the Claim Detail record renumbered and starting and ending positions adjusted.
- Added a value of '0' for Unknown to Claim Detail Injured Party Gender Field 9.
- Description of Claim Detail Field 12 changed to CMS Date of Incident.
- Added Field 13 Industry Date of Incident to Claim Detail record.
- Renamed Claim Detail Fields 14 and 16 to Alleged Nature and Alleged Cause of Injury, Incident, Illness.
