## Appendix J: HPOG-Impact 15-month Control Group Member Follow-Up Survey

**Introduction**

Hello, my name is [                    ]. May I please speak with \_\_\_\_\_?

Thank you for taking the time to talk with me today. I work for a company called Abt SRBI. Abt SRBI is an independent research company and we are helping the Administration for Children and Families (ACF) in the U.S. Department of Health and Human Services (HHS) with its evaluation of the Health Profession Opportunity Grants (HPOG) program. You agreed to be part of the study around [RAD] (when you signed a consent form to let researchers collect information from you).

We need to talk with people who got into the program and those who did not. Your participation in this study will help policymakers and program operators better understand how to help people attain educational credentials and find and keep jobs in the healthcare field. This interview will include questions on your education activities, your use of services, and your overall well-being.

The questions will take about 35 minutes to complete, and when we are done, you will receive \$30, in appreciation for your time. Before we begin the survey, I would like to assure you that all of your responses on this survey will be kept private; your name will not appear in any written reports we produce. Your responses to these questions are completely voluntary. That means you may choose not to answer any question, or you may stop the interview if you wish, but we hope you don't. Your responses to these questions will in no way affect your participation in any programs or your receipt of any kinds of public benefits or services. The information you provide will be kept private and only used for this study.

According to the Paperwork Reduction Act (PRA), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 0970-0394 and it expires xx/xx/xxxx. If you have comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, please send them to [Contact Name]; [Contact Address]; Attn: OMB-PRA (0970-0397). Do you have any questions before we begin?

Let's begin now.

**Screener/Verification:**

First I just need to verify that I am speaking with the correct person.

1. What is your date of birth?
2. What are the last 4 digits of your Social Security Number?
- 3.

<b>Type and amount of vocational and academic training and degrees/certification received since random assignment</b>			
<p>1. My first set of questions is about any school or training experiences you have had since [RAD]. To help you remember this date, our records show that it was about then that you applied for the [HPOG] program [AT (NAME OF HOST INSITUTION, IF DIFFERENT FROM PROGRAM NAME)]. Since [RAD], have you taken any classes or been in an instructional program of any kind anywhere, even for a short time? This may have been offered by a community organization, college, high school, employer, or somewhere else.</p> <p>€ YES € NO € REFUSED € DON'T KNOW</p>	<p>ISIS follow-up</p>	<p>No change</p>

ISIS asks this question more than once in reference to each of up to three training vendors where individuals are currently enrolled or have been enrolled since RAD. In order to make the ISIS responses comparable to the non-location-specific version of the questions,</p>

A "No," "No," "Don't Know" set of responses would "sum" to "No."</p>
<p>4. I'm going to mention some different types of classes. For each one, please tell me if it is a type that you are taking or have taken since [RAD]. I'm interested in any classes you have taken, even if you only went for a short time.</p> <p>a.
