Condition Codes

1	Unused-Good	Unused property that is usable without repairs and identical or interchangeable with new items from normal supply sources.
2	Unused-Fair	Unused property that is usable without repairs, but is deteriorated or damaged to the extent that utility is somewhat impaired.
3	Unused-Poor	Unused property that is usable without repairs, but is considerably deteriorated or damaged. Enough utility remains to classify the property better than salvage.
4	Used-Good	Used property that is usable without repairs, and most of its useful life remains.
5	Used-Fair	Used property that is usable without repairs, but somewhat worn or deteriorated and may soon require repairs.
6	Used-Poor	Used property that may be used without repairs, but is considerably worn or deteriorated to the degree that remaining utility is limited or major repairs will soon be required.
7	Repairs required Good	Required repairs are minor and should not exceed 15 percent of original acquisition cost.
8	Repairs required-Fair	Required repairs are considerable and are estimated to range from 16 to 40 percent of original acquisition cost.
9	Repairs required-Poor	Required repairs are major because property is badly damaged, worn, or deteriorated, and are estimated to range from 41 to 65 percent of original acquisition cost.
X	Salvage	Property has some value in excess of its basic material content, but repair or rehabilitation to use for the originally intended purpose is clearly impractical. Repair for any use would exceed 65 percent of the original acquisition cost.
S	Scrap	Material that has no value except for its basic material content.
