## Steps to estimate annual average number of employees for 2015:

**Step 1: Calculate the Total Number of Employees**  
Determine the number of paid employees in each pay period. Count full-time, part-time, temporary, seasonal, salaried, and hourly workers. Sum the number of employees for all pay periods (See example 1).

**Example 1:**  
Acme Construction paid its employees in 12 pay periods during 2015:

Pay Period	Number of Employees Paid Per Pay Period
1	30
2	0
3	35
4	37
5	37
6	40
7	43
8	42
9	37
10	35
11	30
12	<u>26</u>
	392 (total number of employees paid over all pay periods)

**Step 2: Calculate the Average Annual Employees**  
Divide the total number of employees from Step 1 by the number of pay periods. Round the result to the next highest number.  
(See examples 2 and 3)

**Example 2:**  
Acme Construction had 12 pay periods and paid a total of 392 employees during these pay periods.  
  
392 divided by 12 = 32.67

**Example 3:**  
Acme would round 32.67 to 33.

## Steps to estimate total hours worked by all employees for 2015:

**Step 1: Determine the number of full-time employees.**  
(See example 1)

**Example 1:**  
Of Acme's 33 employees in 2015, 28 were full-time.

**Step 2: Determine the number of hours generally worked by full-time employees for a year. Exclude:**  
- Vacation  
- Sick leave  
- Holiday and any non-work time

**Example 2:**  
Each of Acme's 28 full-time employees worked an average of 2,000 hours per year after excluding vacation, sick leave, holidays, and other non-work time. This works out to 40 hours per week for 50 weeks of the year.

**Step 3: Multiply the number of full-time employees by the number of hours generally worked.**  
(See example 2)

28 full-time employees
X 2,000 hours per year
56,000 total full-time hours

**Step 4: Determine the number of overtime worked by full-time employees.**

**Step 5: Determine the number of hours worked by non full-time employees. Include:**  
- Part-time workers  
- Seasonal workers  
- Temporary workers

**Example 3:**  
Acme's 28 full-time employees worked a total of 2,800 hours of overtime during 2015 and 56,000 regular hours. Acme's 5 part-time employees worked a total of 2,715 hours during 2015.

**Step 6: Estimate Total Hours worked**  
- Add the number of full-time worker hours, overtime hours, and the part-time worker hours to calculate the estimated number of hours worked for all employees.  
(See example 3)

56,000	full-time hours from step 2
2,800	overtime hours
+ 2,715	part-time hours
61,515	total hours worked

## Section 3: Reporting Cases with Days Away from Work

### Instructions:

Please refer to your records of days away from work cases to complete this section. If you maintain these records on the OSHA Form 300, *Log of Work-Related Injuries and Illnesses*, these cases will be indicated by checks in Column H (see sample below).

If you had cases with days away from work in Column H, please complete Section 3 (starting on the next page). You should only report cases with days away from work.

If you had **NO** cases with days away from work in Column H, you are finished with the survey. Proceed to Section 4 to submit your data to BLS.

The image shows a sample of OSHA Form 300. The form is titled "OSHA's Form 300 Log of Work-Related Injuries and Illnesses". It is divided into several sections: "Identify the person", "Describe the case", and "Report the case". The "Report the case" section includes a grid for reporting cases with days away from work. A red box highlights the "Days Away from Work" column (Column H) in this grid, which contains checkboxes for each day of the year. A red arrow points from the text above to this column.

We have designed this survey so that you should not have to report more than approximately 15 cases. **If you have more than 15 cases**, please contact the state agency at the phone number listed on the front of the survey instructions you received in the mail.

**Step 1:** Fill out one "Case with Days Away from Work" form for each work-related injury or illness resulting in days away from work. The requested information can be found on documents such as:

- The *Injury and Illness Incident Report* (OSHA Form 301);
- A worker's compensation report;
- An accident report; or
- An insurance form.

**Step 2:** If more than one establishment is noted on the survey instructions under "Report For," be sure to look at all your OSHA Form 300's to find which cases to report.

**Step 3:** If you had an injury or illness that resulted in death, please include a comment in the comment field in Section 4.

**Step 4:** When you are finished, proceed to Section 4 to submit your data to BLS.
