Upon finding a Canadian laboratory to be qualified, HHS will recommend that DOT certify the laboratory (**Federal Register**, July 16, 1996) as meeting the minimum standards of the Mandatory Guidelines published in the **Federal Register** on April 30, 2010 (75 FR 22809). After receiving DOT certification, the laboratory will be included in the monthly list of HHS-certified laboratories and participate in the NLCP certification maintenance program.

SUPPLEMENTARY INFORMATION: Title II, Homeland Security Act, 6 U.S.C. 121(d)(1) To access, receive, and analyze law enforcement information, intelligence information and other information from agencies of the Federal Government, State and local government agencies . . . and Private sector entities and to integrate such information in support of the mission responsibilities of the Department. The following authorities also permit DHS to collect information of the type contemplated: Federal Information Security Management Act of 2002 (FISMA), 44 U.S.C. 3546; Homeland Security Presidential Directive (HSPD) 7, “Critical Infrastructure Identification, Prioritization, and Protection” (2003); and NSPD-54/HSPD-23, “Cybersecurity Policy” (2008).

In May 2009, the President ordered a Cyberspace Policy Review to develop a comprehensive approach to secure and defend America’s infrastructure. The review built upon the Comprehensive National Cybersecurity Initiative (CNCI).

In response to increased cyber threats across the Nation, the National Initiative for Cybersecurity Education (NICE) expanded from a previous effort, the CNCI Initiative #8. NICE formed in 2010, and is a nationally coordinated effort comprised of over 20 federal departments and agencies, and numerous partners in academia and industry. NICE focuses on cybersecurity awareness, education, training and professional development. NICE seeks to encourage and build cybersecurity awareness and competency across the Nation and to develop an agile, highly skilled cybersecurity workforce.

The National Initiative for Cybersecurity Careers & Studies (NICCS) Portal is a national online resource for cybersecurity awareness, education, talent management, and professional development and training. NICCS Portal is an implementation tool for NICE. Its mission is to provide comprehensive cybersecurity resources to the public.

Any information received from the public in support of the NICCS Portal is completely voluntary. Organizations and individuals who do not provide information can still utilize the NICCS Portal without restriction or penalty. An organization or individual who wants their information removed from the NICCS Portal can email the NICCS Supervisory Office (SO). The NICCS SO

email address, niccs@hq.dhs.gov, is provided in many places throughout the Web site. The organization or individual can send the SO a brief email stating their desire to remove their data.

Department of Homeland Security (DHS) Cybersecurity Education and Awareness (CE&A) intends for a portion of the collected information from the NICCS Cybersecurity Scholarships, Internships, Camps & Clubs, and Competitions Web Form to be displayed on a publicly accessible Web site called the National Initiative for Cybersecurity Careers and Studies (NICCS) Portal (<http://niccs.us-cert.gov/>). Information will be made available to the public to support the National Initiative for Cybersecurity Education (NICE) mission.

The information will be completely collected via electronic means using the web form collection instruments. Once data is inputted into the web form collection instruments it will be automatically formatted and emailed to the NICCS Supervisory Office (SO) for review and processing. Correspondence between the public and DHS CE&A will be via the NICCS SO official email address (niccs@hq.dhs.gov).

Correspondence could include a confirmation to the public confirming the receipt and acceptance of their data entry. After this confirmation, correspondence will be limited to conversations initiated by the public.

All information collected from the NICCS Cybersecurity Scholarships, Internships, Camps & Clubs, and Competitions Web Form will be stored on the publicly accessible NICCS Portal. The following privacy documents address this collection request: DHS/ALL/PIA-006—DHS General Contacts List Privacy Impact Assessments (PIA) and DHS/ALL/SORN-002—Department of Homeland Security (DHS) Mailing and Other Lists Systems System of Records Notice (SORN). All information, excluding Points of Contacts (POC) names and email addresses, will be made available on the public-facing NICCS web Portal. There is no assurance of confidentiality provided to the respondents for this collection of information.

This is a new collection; therefore, there has been no increase or decrease in the estimated annual burden hours previously reported for this information collection.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) U.S. Immigration and Customs Enforcement

(ICE) proposes to update and reissue a current DHS system of records titled "DHS/ICE—011 Immigration and Enforcement Operational Records (ENFORCE) System of Records." With this update, ICE is notifying the public of two new routine uses added to permit ICE's sharing of limited information with external parties. These routine uses allow ICE to share information from this system of records with: (1) Other domestic law enforcement agencies or agencies operating sex offender registries when an alien required to register as a sex offender is released from ICE custody or removed from the United States, and (2) other government agencies or public health entities to facilitate continuity of care for individuals upon release from ICE custody and to assist with investigating and combating significant public health threats.

Notifications To Support Sex Offender Registration Requirements

ICE is proposing new routine use HH that will authorize disclosure of information from this system of records "to a domestic law enforcement agency or other agency operating a sex offender registry for the purpose of providing notice of an individual's release from DHS custody or removal from the United States, when the individual is required to register as a sex offender, in order to assist those agencies in updating sex offender registries and otherwise carrying out the sex offender registration requirements within their jurisdictions."

ICE uses orders of supervision or orders of recognizance to release from custody criminal aliens who have been ordered removed from the United States but cannot be removed or further detained, or are released at the discretion of the agency. In these instances, ICE may set conditions for release. For aliens with a requirement to register as a sex offender with a sex offender registry, ICE's release conditions mandate that the alien enroll in a sexual deviancy counseling program and register as a sex offender, if applicable. Current federal laws impose registration requirements with sex offender registries and require offenders to keep their registration information current in each state, territorial, or tribal jurisdictions in which they live, work, or attend school, and, for initial registration purposes only, in the jurisdiction in which they were convicted, if such jurisdiction is different from the jurisdiction of residence.

With the publication of new routine use HH, ICE is proposing to notify
