Overview

The RMCCDC is a relatively new collegiate competition, this is our third year as the 10th region with competitors from Kansas, Utah, Wyoming, Nebraska, New Mexico and of course Colorado, providing collegiate teams an opportunity to earn the right to test their cybersecurity skills, knowledge and abilities. You will work for two days as a replacement security operations team at a fictitious company that is under attack by an adversary. The competition provides faculty a measure of the strength of their curriculum, students will find out how they do against long odds and pressure, pressure, pressure... and employers can search for current and future security, network and systems engineers. The team with the most points wins the right to represent the region at the NCCDC and demonstrate their skills to potential employers.

Attendance Information

Event Format: Virtual and Physical attendance

Operating Scale: US Region 4 West

Primary Location: Boulder, CO 12345

Registration Requirements

Cost: No Fee

Academic Level: Collegiate

Difficulty Level: unknown

Play Composition: Team
