INITIAL PRIVACY ASSESSMENT (IPA)

The Initial Privacy Assessment (IPA) is use to determine whether a Privacy Impact Assessment (PIA) is required under the E-Government Act of 2002. The IPA is also used to determine if a System of Records Notice (SORN) is required under the Privacy Act of 1974.

The IPA is an administrative form created by the Privacy Branch to efficiently and effectively identify the use of Personally Identifiable Information (PII) across the Department. The IPA focuses on three areas of inquiry:

- Business data and business processes within each HUD program.
- Potential connections with individuals including the use of PII – any use of social security numbers must be specifically identified.

HUD's program and support offices should ensure that its respective IPA is completed and sent to the Privacy Branch for approval. If SSNs are to be used, the IPA specifically identifies the justification and authority for using SSNs. Upon receipt of the IPA, the Privacy Branch determines the applicability of other privacy compliance requirements including the PIA and SORN. The IPA is complete when the Privacy Branch signs it and sends the final copy back to the identified point of contact.

Please complete this form and send it to the HUD Privacy Branch staff.

4. Do you use or collect Social Security Numbers (SSNs)? (This includes truncated SSNs)

No.

Yes. Why does the program collect SSNs? Provide the function of the SSN and the legal authority to do so:

The Department uses OMB approved standard forms for the collection of much of this information. The SF-424 the Standard Application Form for Federal Assistance, requires the use of grantee tax identification numbers. Standard Form 1199A, the Direct Deposit Sign Up form requires grantee tax identification numbers as well as banking account information. The LOCCS Voice Response System Access Authorization form (HUD-27054) requires grantee tax identification numbers as well as social security numbers of both the individual receiving direct access to LOCCS, as well as the official approving that individual's access for LOCCS. The form states:

The Housing and Community Development Act of 1987, 42 U.S.C. 3543 authorizes HUD to collect the SSN. The purpose of the data is to safeguard the Line of Credit Control System (LOCCS) from unauthorized access. The data are used to ensure that individuals who no longer require access to LOCCS have their access capability promptly deleted. Provision of the SSN is mandatory. HUD uses it as a unique identifier for safeguarding the LOCCS form unauthorized access. This information will not be otherwise disclosed or released outside of HUD, except as permitted or required by law.
