According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-0326. **NAHMS-400  
AUG 2017**

We would like to ask you some questions about your beef operation. To understand important issues in the beef industry, we need to obtain information about the health management of your beef cattle, as well as about productivity and general management.

You may find it easier to provide accurate data if you use records to answer some of the questions. Your participation is voluntary and not required by law. However, your responses are needed to make regional and national estimates as accurate as possible.

**BEGINNING TIME** (military)

#### SECTION A: OPERATION DESCRIPTION

Is this correct? [*Make necessary corrections then continue.*]

The rest of my questions will refer only to the **beef cow-calf** operation, excluding stockers and feeders, unless otherwise noted.
