

**OMB Control Number:** 0583-0153.

**Title of Clearance:** Public Health Information System.

**Agency Form Number affected by Change Worksheet:** FSIS Application for Export Certificate (Form 9060-6)

**Summary of Changes:**

The FSIS Application for Export Certificate (Form 9060-6) is required for an exporter to obtain an FSIS Export Certificate of Wholesomeness. This form provides FSIS with important data necessary to certify and facilitate the export of product (9 CFR 322.2 & 381.105).

FSIS is proposing to make the following changes to better reflect existing policy and clarify the instructions:

- **Current:** “2. Replacement Application/Reason for Replacement: Select if the application is for a replacement certificate, and select the reason for the replacement.”
- **Proposed:** “2. Replacement Application/Reason for Replacement: Select if the application is for a replacement certificate. For a one-to-one replacement certificate, select the reason for the replacement. If the replacement is for a split or consolidated certificate, select the appropriate box (split or consolidated) and the reason for the replacement.”

FSIS is also proposing to correct two misspellings in the instructions (page 2, section 19):

- “Rectangular” (not “Regtangular”)
- “Carton” (not “Canon”)
