If your governmental unit has boundary changes to report, please submit them to the Census Bureau by **March 1**. All annexations received by **March 1** will be included in this year's legal boundary delivery for the Population Estimates Program (PEP) and the American Community Survey (ACS). All annexation and boundary corrections received by **May 31** will be reflected in next year's BAS materials. The Census Bureau will attempt to include any submitted street and landmark updates as our time and resources permit. Please note that your response to the Census Bureau BAS does not supersede any state or county reporting requirements.

If, after reviewing your boundaries, you have no changes to report, please respond online:
