

**ATTACHMENT 6\_E2b: ExPECTT PARENT PERMISSION FOR YOUTH FOLLOW-UP  
INTERVIEW**

Form Approved  
OMB No. 0910-0753  
Exp Date: xx/xx/xxxx

The Evaluation of the Public Education Campaign on Teen Tobacco (ExPECTT) is a research study designed to collect data from approximately 6,800 youth about their experiences with tobacco products, media use, and other behaviors that are both legal and illegal. Your child has now completed a baseline and three follow-up interviews for this study. We would now like her or him to complete a fourth follow-up interview.

Because your child is not yet 18 years old, we must have your permission as the parent or legal guardian before your child participates in either a web or in person interview.

**Purpose of the Youth Interview**

We want to interview your child about his or her views and experiences with tobacco use. Your child's answers combined with the answers of other youth in the study will improve our understanding of how public education campaigns affect youths' attitudes, beliefs, and behaviors toward tobacco use.

**Types of Questions for Youth**

The interview with your child will last about 30-40 minutes. Your child will be asked about his or her media use, as well as his or her attitudes and beliefs towards tobacco use.

**Voluntary Participation**

Your child's participation in this study is completely voluntary. He or she can refuse to answer any and all questions. Your child has the right to stop the interview at any time. Because your child's contribution is important, we will offer your child **\$25** if they complete the survey through the website on or before [Early Bird Date], or **\$20** after [Early Bird Date], as a token of appreciation for participating. For each follow-up your child completes in the future, he or she will receive a token of appreciation for participating in those additional interviews.

**Risks**

There are no physical risks to your child from participating in this interview. It is possible that some questions might make your child mildly uncomfortable, depending on his or her responses.

**Benefits**

There are no direct benefits to your child from answering our questions. However, he or she will be contributing to important research related to tobacco use among youth. The information provided will help researchers and policy makers understand the impact and effectiveness of public education activities aimed at reducing tobacco-related death and disease. Your child's answers will be entered into a computer and labeled with a case identification number. Your name and that of your child will not be reported with any information your child provides. Information your child provides will be combined with answers of many others and reported in a summary form. All staff involved in this research are committed to confidentiality and have signed a Privacy Pledge. Information will be kept private to the fullest extent allowable by law.
