

## Attachment D: Sources and Justification for PAGES Grantee- and Participant-Level Data

The HPOG Next Gen’s PAGES will collect both grantee- and participant-level data elements from all HPOG grantees that will contribute to grantee performance monitoring, the impact evaluation, the federal evaluation of Tribal grantees, and future studies. Where possible, data elements have also been aligned with other key related ACF data collection efforts, particularly the HPOG ISO, HPOG NIE, HPOG Impact, and PACE project data collection activities that are ongoing and have been approved by OMB (see Attachment F). The sources and justification for new data items are presented here. See Instrument 1 for the complete list of data items with response fields/formats and value descriptions.

Type of organization	New.	We would like to gather this one-time entry information on vendors that would be useful in describing them in an implementation study.
Type of partnership		
<b>Basic Skills Training</b>		

Data Item / Question	Source	Justification (if new or updated)
Vendor	PRS (clearance number 0970-0394)	
Type of Training	New.	We would like to gather this one-time entry information on available trainings that would be useful in describing the grantee program design in an implementation study.
Narrative description	New.	Narrative description of each service that populates to PPR
Program length metric (choose one)	New.	Proposed method of collecting training course length to get more accurate data than how it was collected in the PRS (clearance number 0970-0394). We would like to gather usual number of weeks for both credits and hours/week reports to have at least one comparable length metric across all courses.
If credits, number of credits for completion		
If hours per week chosen, hours per week		
Usual number of weeks of program length value		
HPOG Paid	New.	We would like to gather this one-time entry information on available trainings that would be useful in describing the grantee program design in an implementation study.
Delivery Mode	New.	We would like to gather this one-time entry information on innovative approaches to delivering basic skills training that would be useful in describing the grantee program design in an implementation study. Additionally, innovative approaches to delivering basic skills training may be a program enhancement of interest for the impact study.

<b>Healthcare Occupational Training Activities</b>		
Vendor	PRS (clearance number 0970-0394)	
Training ID	PRS (clearance number 0970-0394)	
Training location	PRS (clearance number 0970-0394)	
Training occupational code	Taken from a list of occupational codes. After initial review of grantee applications, we may add subcodes to the SOC/O*NET codes to more precisely identify trainings.	Our experience from the PRS using SOC found they were not detailed enough to capture variations in healthcare occupational training offered by grantees. We would like to add subcodes to capture more detailed variations.
Professional, state, or industry certification or license	PRS (clearance number 0970-0394)	
Career pathway level	Specific definitions of these levels would be determined by ACF/evaluation team and grantee would assign trainings to the levels using these definitions.	We would like to categorize trainings into levels (based on wages of the associated occupation) to be able to report on movement forward on a career pathway.
Interim milestone training	New.	We would like to create this indicator of longer training courses (more than one semester or 12 weeks) for which grantees can indicate enrolled
