(b) *To whom submitted.* The completed form must be submitted to the Officer in Charge, Marine Inspection, in the Marine Inspection Zone within which the inspection is to be conducted.

(c) *New vessels.* Applications for inspection of new vessels must be preceded by the submission of applicable drawings or prints in accordance with the specific requirements in subchapters D (Tank Vessels), E (Load Lines), F (Marine Engineering), H (Passenger Vessels), I (Cargo and Miscellaneous Vessels), J (Electrical Engineering), O (Certain Bulk Dangerous Cargoes), S (Subdivision and Stability), and T (Small Passenger Vessels) of this chapter applicable to that particular type of vessel or type of service in which the vessel is proposed to be operated.

¹ Where length is used in this table it means the length measured from end to end over the deck, excluding sheer. This expression means a straight line measurement of the overall length from the foremost part of the vessel to the aftermost part of the vessel, measured parallel to the centerline.

² Subchapters E (Load Lines), F (Marine Engineering), J (Electrical Engineering), and N (Dangerous Cargoes) of this chapter may also be applicable under certain conditions. The provisions of 49 CFR parts 171-179 apply whenever hazardous materials are on board vessels (including motorboats), except when specifically exempted by law.

³ Public nautical schools, other than vessels of the Navy and Coast Guard, shall meet the requirements of part 167 of subchapter R (Nautical Schools) of this chapter, Civilian nautical schools, as defined by 46 U.S.C. 1331, shall meet the requirements of subchapter H (Passenger Vessels) and part 168 of subchapter R (Nautical Schools) of this chapter.

⁴ Subchapter H (Passenger Vessels) of this chapter covers only those vessels of 100 gross tons or more, subchapter T (Small Passenger Vessels) of this chapter covers only those vessels of less than 100 gross tons.

⁵ Vessels covered by subchapter H (Passenger Vessels) or I (Cargo and Miscellaneous Vessels) of this chapter, where the principal purpose or use of the vessel is not for the carriage of liquid cargo, may be granted a permit to carry a limited amount of flammable or combustible liquid cargo in bulk. The portion of the vessel used for the carriage of the flammable or combustible liquid cargo shall meet the requirements of subchapter D (Tank Vessels) in addition to the requirements of subchapter H (Passenger Vessels) or I (Cargo and Miscellaneous Vessels) of this chapter.

⁶ Any vessel on an international voyage is subject to the requirements of the International Convention for Safety of Life at Sea, 1974.

⁷ The meaning of the term, *passenger*, is as defined in the Act of May 10, 1956 (Sec. 1, 70 Stat. 151; 46 U.S.C. 390). On oceanographic vessels scientific personnel on board shall not be deemed to be passengers nor seamen, but for calculations of lifesaving equipment, etc., shall be counted as persons.

⁸ Boilers and machinery are subject to examination on vessels over 40 feet in length.

⁹ Under 46 U.S.C. 441, an *oceanographic research vessel* is a vessel " * * * being employed exclusively in instruction in oceanography or innology, or both, or exclusively in oceanographic research * * * ". Under 46 U.S.C. 443, "an oceanographic research vessel shall not be deemed to be engaged in trade or commerce," if or when an oceanographic vessel engaged in trade or commerce, such vessel cannot operate under its certificate of inspection as an oceanographic vessel, but shall be inspected and certificated for the service in which engaged, and the scientific personnel aboard then become persons employed in the business of the vessel.

¹⁰ Bulk dangerous cargoes are cargoes specified in table 151.01-10(b), in table I of part 153, and in table 4 of part 154 of this chapter.

¹¹ For manned tank barges see § 151.01-10(e) of this chapter.

(b) The specific application of regulations concerning inspecting and certificating vessels is set forth in the specific subchapter governing a particular class of vessels.

(1) For passenger vessels see part 70 of subchapter H (Passenger Vessels) of this chapter.

(2) For cargo and miscellaneous vessels see part 90 of subchapter I (Cargo and Miscellaneous Vessels) of this chapter.

(3) For tank vessels see part 30 of subchapter D (Tank Vessels) of this chapter.

(4) For small passenger vessels see part 175 of subchapter T (Small Passenger Vessels) of this chapter.

(5) For uninspected vessels see part 24 of subchapter C (Uninspected Vessels) of this chapter.

(6) For vessels carrying certain bulk dangerous cargoes see subchapter O of this chapter.

§ 2.01-8 Application of regulations to vessels or tankships on an international voyage.

(a) Where, in various places or portions in this chapter, requirements are stipulated specifically for *vessels on an international voyage* or *tankships on an international voyage*, it is intended that these requirements apply only to vessels or tankships, as applicable, which are subject to the International Convention for Safety of Life at Sea, 1974.

(b) For details regarding application of Convention requirements to tankships, see § 30.01-6 of this chapter; to passenger vessels, see § 70.05-10 of this chapter; to cargo ships other than tankships, see § 90.05-10 of this chapter; and to small passenger vessels, see § 176.35-1 of this chapter. § 2.01-10 Inspection requirements—domestic vessels.

(a) If during the inspection of a vessel made at the request of the master, owner, or agent, the vessel or her equipment is found not to conform to the requirements of law or regulations in this chapter, the requirements which must be met will be listed on Form CG-835, Notice of Merchant Marine Inspection Requirements, and given to the master of the vessel.

(b) The Coast Guard on its own initiative may examine or inspect or reinspect at any time any vessel subject to title 52 of the Revised Statutes (R.S. 4399-4500; 46 U.S.C. 170, 214-240, 361-498), and acts amendatory thereof or supplemental thereto. If during such examination, inspection, or reinspection, any failure to comply with any applicable requirement of law and/or applicable regulations in this chapter, or any defects or imperfections become apparent tending to render the navigation of the vessel unsafe, or that repairs have become necessary, the Coast Guard will so notify the master and state what is required.

§ 2.01-13 Inspection requirements—foreign vessels.

(a) Foreign vessels registered in countries which are parties to the effective International Convention for Safety of Life at Sea are normally subject to the examination provided for in Chapter I of that Convention. However, in the case of any vessel involving novel features of design or construction, upon which that Convention is silent or which involve potential unusual operating risks, a more extensive inspection may be required when considered necessary to safeguard the life or property in United States ports where such vessel may enter. In such a case, pertinent plans and/or calculations may be required to be submitted sufficiently in advance to permit evaluation before inspection.

(b) Foreign vessels registered in countries which are not parties to the effective International Convention for Safety of Life at Sea, or foreign vessels registered in countries which are parties to the effective Convention but which vessels are exempted from part or all of the Convention, may under

conditions specified in applicable inspection laws be subject to inspection and certification as specified in regulations governing specific categories of vessels.

(c) For details concerning application of regulations to foreign vessels, see part 30 (Tank Vessels), part 70 (Passenger Vessels), part 90 (Cargo and Miscellaneous Vessels), §146.02-2 (Dangerous Cargoes), part 148 (Bulk Solid Hazardous Materials), parts 153 and 154 (Certain Bulk Dangerous Cargoes), and part 175 (Small Passenger Vessels) of this chapter.

The requirements are set forth in the subchapter governing a particular class of vessels or in a subchapter governing a particular subject as follows:

(4) For tank vessels, see §§31.10-25 and 35.01-1 of subchapter D (Tank Vessels) of this chapter.

(5) For public nautical schoolships, see §§167.30-1 and 167.30-10 of subchapter R (Nautical Schools) of this chapter.

(6) For oceanographic vessels, see §§189.45-1 and 189.50-1 of subchapter U (Oceanographic Vessels) of this chapter.

§2.10-105 Prepayment of annual vessel inspection fees.

(a) Vessel owners may prepay the annual vessel inspection fee for any period of not less than three years, and not more than the design life or remaining expected service life of the vessel.

(b) To prepay the annual vessel inspection fee for a period of three or more years, the owner must submit a written request to Commandant (G-MRP) specifying the vessel identification number and the period for which prepayment is to be made.

(c) The total of the annual fees for the requested prepayment period will be discounted to its net present value using the following formula:

$$PV = \sum_{t=0}^n \frac{R_0(1 + \pi)^t}{(1 + i)^t}$$

Where:

PV is the Present Value of the series of annual user fees to be prepaid (the net amount to be prepaid)

R₀ is the published user fee of the vessel

i is the interest rate for 10-year Treasury notes at the time of prepayment calculation

π is the rate of inflation (based on projected military personnel costs at the time of prepayment calculation)

n is the total number of years to be prepaid

t is the number of years after prepayment of the fee, for each annual increment (t=0, 1, 2, 3 ... n)

(d) When the annual vessel inspection fee has been prepaid, the entitlement to inspection services for the prepayment period attaches to the vessel and remains with the vessel if it is sold. The entitlement to inspection services may not be transferred to any other vessel.

(e) If a vessel is removed from Coast Guard certification and the vessel owner surrenders the vessel's Certificate of Inspection, the owner may request a refund of the remaining prepayment amount. The annual vessel inspection fee will not be refunded for the year in which the Certificate of Inspection is surrendered. §2.10-115 Changes in vessel service.

(a) If a vessel certificated for a single service changes service, the annual vessel inspection fee is not adjusted during the year in which a change in service occurs. The annual vessel inspection fee for the new vessel category is payable on the vessel's user fee anniversary date immediately following the date of the change in service.

(b) If a change in service occurs and the annual vessel inspection fee has been prepaid, Commandant (G-MRP) will recalculate the prepayment amount based on the new vessel category and advise the owner of available prepayment options.

§ 2.10-130 Fees for examination of foreign mobile offshore drilling units.

Each foreign mobile offshore drilling unit must pay:

(a) For examination for the issuance of a Letter of Compliance indicating compliance with the design and equipment standards of either the documenting nation or the International Maritime Organization Code for Construction and Equipment of Mobile Offshore Drilling Units, a fee of \$1,830.

(b) For examination for the issuance of a Letter of Compliance indicating

compliance with the design and equipment standards of 46 CFR part 108, the inspection fee listed in Table 2.10-101 of this subpart for the same type of mobile offshore drilling unit.

§ 2.10-135 Penalties.

(a) A vessel owner or operator who fails to pay a fee or charge established under this subpart is liable to the United States Government for a civil penalty of not more than \$5,000 for each violation.

(b) In addition to the fees established in this subpart, the Coast Guard may recover collection and enforcement costs associated with delinquent payments of, or failure to pay, a fee. Coast Guard inspection and examination services may also be withheld pending payment of outstanding fees owed to the Coast Guard for inspection and examination services provided.

Subpart 2.45—Waivers of Navigation and Vessel Inspection Laws

§ 2.45-1 Authority for and limitations on issuance.

Compliance with certain of the navigation and vessel inspection laws may be waived by the Commandant under authority of the act of December 27, 1950 (Pub. L. 50-891, secs. 1, 2, 64 Stat. 1120; 46 U.S.C., note preceding section 1), and the delegation of waiver authority contained in Department of the Treasury Order CGFR 51-1, dated January 23, 1951 (16 FR 731), in any case where such waiver is deemed necessary in the interest of national defense.

§ 2.45-5 Policy.

(a) It is the policy of the Coast Guard, in the current administration of the laws and regulations relating to navigation and vessel inspection, to further the interests of national defense by simplifying the procedure involved therein, eliminating all causes of delay in the sailing of vessels, and by bringing about a proper balance between the factors of safety at sea and the national defense. While it is not the policy of the Coast Guard to countenance willful violations of the laws and regulations or negligence in meeting the requirements thereof, neither is it contemplated that masters who exercise all reasonable efforts to comply with the requirements in effect be cited for violations on technical grounds.

§ 2.45-10 Waivers issued.

(a) The waivers having general applicability are published in part 154 of this chapter, as well as in 33 CFR part 19.

§ 2.45-15 Specific individual waivers.

(a) Applications for waivers affecting only one vessel in any one order under the provisions of § 154.01 of this chapter are made on Form CG-2633, Application for Waiver Order. The application shall state the name of the vessel, her employment, the requirements of law or

regulations, waiver of which is requested, the reasons why waiver is necessary, and shall be signed by the master, owner, or agent of the vessel, or by the representative of any interested Government agency. The application shall be made to the Coast Guard District Commander or to his designated representative at the port or place where the vessel is located. In any foreign port or place the application shall be made to the designated representative of the Commandant at such port or place or if the Coast Guard has not established facilities in such port or place to the nearest designated representative of the Commandant at a port or place where such facilities have been established.

(b) If the request is granted, the waiver order will describe the vessel, the requirements of law or regulations waived, the conditions to which the waiver is subject, and the period of time for which the waiver is effective.

§ 2.45-20 General waivers.

(a) Applications for waivers having general applicability should be addressed to the Commandant (G-MOC), U.S. Coast Guard, Washington, DC 20593-0001.

(b) Only the Commandant is authorized to issue general waivers which affect more than one vessel in one order.

Subpart 2.75—Approvals of Safety Equipment, Materials and Installations, and Qualifications for Construction Personnel

§ 2.75-1 Approvals.

(a) Certain navigation and vessel inspection laws, or regulations in this chapter or in 33 CFR chapter I, require the Commandant's approval before spe-

cific types of safety equipment, materials, or installations may be installed or used on vessels subject to Coast Guard inspection, or on other described vessels, motorboats, artificial islands, and fixed structures.

(b) The Commandant's approvals are issued to persons, partnerships, companies, or corporations who offer for sale specific items of safety equipment, materials, or installations, or intend them for their own or others' use. These approvals are intended to provide a control over the quality of such approved items. The Commandant's approvals apply only to those items constructed or installed in accordance with applicable requirements, and the details as described in the documents granting specific approval. If a specific item when manufactured does not comply with these details, then it is not considered to be approved and the approval issued does not apply to such modified item. For example, if an item is manufactured with changes in design or material not previously approved, the approval does not apply to such modified item. The failure to comply with applicable requirements and details specified in the approval subjects the holder to immediate suspension of approval as described in § 2.75-40, and if necessary, to a public hearing seeking withdrawal of approval and removal of all such items from use or installation as provided in § 2.75-50.

(c) The Commandant's approvals are issued to qualified holders in the form of certificates of approval (Form CGHQ-10030), by appropriate description and identification in documents filed with the Office of the Federal Register and published in the FEDERAL REGISTER, or by letters, or by appropriate markings on drawings, plans, etc. Under the direction of the Commandant, the Chief, Marine Safety and Environmental Protection is delegated the authority to exercise the necessary actions relating to the granting, suspension, cancellation or revocation of approvals for special items of safety equipment, materials or installations required by law in regulation in this chapter or in 33 CFR chapter I to have the Commandant's approval. The authority delegated to the Chief, Office of

Marine Safety, Security and Environmental Protection, may be further delegated by him.

(d) The approvals granted to holders qualifying under the regulations in this chapter or in specifications, copies of which may be obtained from the Commandant (G-MSE), and to which official Coast Guard numbers are assigned, will be in the form of certificates of approval. Unless specifically provided otherwise, the approval shall be valid for a period of five years from the date on the certificate of approval, but subject to suspension and/or cancellation if it is found the item offered, sold, or used as Coast Guard approved differs in any detail from the item as described in the certificate of approval and referenced material.

(e) A specific Commandant's approval granted to anyone, which is described in a certificate of approval, or a letter, or marked plans, etc., cannot be transferred to another without a specific prior authorization from the Commandant. Such a transfer without the Commandant's authorization normally terminates such approval.

(f) A listing of current and formerly approved equipment and materials is published by the Coast Guard from time to time in "Equipment Lists" (COMDTINST M16714.3 series), which is available for sale from the Superintendent of Documents, Government Printing Office.

[CGFR 65-50, 30 FR 16604, Dec. 30, 1965, as amended by CGD 82-063b, 48 FR 4781, Feb. 3, 1983; CGD 88-070, 53 FR 34533, Sept. 7, 1988; CGD 95-072, 60 FR 50459, Sept. 29, 1995; CGD 93-055, 61 FR 13927, March 28, 1996; CGD 96-041, 61 FR 50725, Sept. 27, 1996]

§ 2.75-5 Certificates of approval.

(a) The Chief, Marine Safety and Environmental Protection, or his delegate, will issue a certificate of approval to the manufacturer or party named therein and certify that such manufacturer or party has submitted satisfactory evidence that the item described therein complies with the applicable laws and regulations, which are outlined on the reverse side of the certificate.

(b) The approval shall be in effect for a period of 5 years from the date on the certificate of approval unless sooner

canceled or suspended by proper authority, or otherwise specifically stated in the certificate.

[CGFR 65-50, 30 FR 16604, Dec. 30, 1965, as amended by CGD 82-063b, 48 FR 4781, Feb. 3, 1983; CGD 88-070, 53 FR 34533, Sept. 7, 1988; CGD 96-041, 61 FR 50725, Sept. 27, 1996]

§ 2.75-10 Procedures for obtaining approvals.

(a) The requirements for obtaining approvals of items covered by specifications and bearing official Coast Guard approval numbers are set forth in parts 159 through 164 of this chapter. For other items, the requirements are described in the regulations governing such items.

(b) Unless otherwise specified, correspondence concerning approvals should be addressed to the Commandant (G-MSE), U.S. Coast Guard, Washington, DC 20593-0001. When plans, drawings, test data, etc., are required to be submitted by the manufacturer, the material being transmitted with the application should be clearly identified.

[CGD 76-048, 44 FR 73043, Dec. 17, 1979, as amended by CGD 82-063b, 48 FR 4781, Feb. 3, 1983; CGD 88-070, 53 FR 34533, Sept. 7, 1988; CGD 95-072, 60 FR 50459, Sept. 29, 1995; CGD 96-041, 61 FR 50725, Sept. 27, 1996]

§ 2.75-15 Requirements and tests.

(a) Approved items described in certificates of approval are usually required to meet specific requirements and/or tests, prior to obtaining the approval. Additional factory tests to determine that proper uniformity and quality controls are followed during the manufacture of the specific items may be required. These requirements governing the manufacturer in particular are set forth in the regulations in this chapter or in specifications, copies of which may be obtained from the Commandant (G-MSE). If the requirements are met, a certificate of approval will be issued.

(b) When the specific item described in an application, together with accompanying drawings, plans, etc., does not meet applicable requirements or fails to meet specified tests, the applicant will be notified accordingly. The Coast Guard may suggest changes in order

for the item to qualify and permit the issuance of an approval.

(c) For items not covered by specification requirements in parts 160 to 164, inclusive (subchapter Q—Specifications) of this chapter, the requirements in the navigation and vessel inspection laws, and applicable regulations in this chapter or in 33 CFR chapter I apply and shall be met before approvals may be issued.

§ 2.75-25 Portable fire extinguishers.

(a) The portable fire extinguishers listed and labeled as *marine type* by a recognized laboratory, as provided in subpart 162.028 of part 162 of subchapter Q (Specifications) of this chapter, will be accepted as approved for use on merchant vessels, motorboats, etc., whenever required by the regulations in this chapter, and for use on artificial islands and fixed structures on the Outer Continental Shelf whenever required by the regulations in 33 CFR parts 140 to 146, inclusive.

(b) The procedures for manufacturers to follow and the requirements governing portable fire extinguishers to qualify being listed and labeled as *marine type* by a recognized laboratory are set forth in subpart 162.028 of part 162 of subchapter Q (Specifications) of this chapter.

(c) The procedures for a laboratory to qualify as a *recognized laboratory* and to be listed in §162.028-5 of subchapter Q (Specifications) of this chapter are as follows:

(1) The laboratory shall submit an informal application in writing on its usual letterhead paper to the Commandant (G-M), United States Coast Guard, Washington, DC 20593, requesting recognition and listing, as a recognized laboratory.

(2) Accompanying the informal application, as identified enclosures, shall be:

(i) A certification that it is a laboratory which has been and is regularly engaged in the examination, testing, and evaluation of portable fire extinguishers.

(ii) A certification that it has an established factory inspection, listing, and labeling program, together with a complete description of it and how it works.

(iii) A description of its facilities used in the examination, testing, and evaluation of portable fire extinguishers, together with its name (if different from that of submitter), and location (city, street, and state).

(iv) A list of the names and home and office addresses of its principal officers and its managing directors (if any).

(v) A description of its special standards for listing and labeling portable fire extinguishers as *marine type*, as contemplated by the specification in subpart 162.028 of part 162 of subchapter Q (Specifications) of this chapter.

(3) If the Commandant finds that a laboratory qualifies as a *recognized laboratory*, and it is subject to Coast Guard jurisdiction, the approval and listing will be published in the FEDERAL REGISTER and will be in effect until suspended, canceled or terminated by proper authority. The failure of a recognized laboratory to maintain its established factory inspection, listing and labeling program as approved by the Commandant shall be cause for terminating a listing as a *recognized laboratory*.

§ 2.75-40 Suspension of approval.

(a) Whenever it is determined that a specific item is not in compliance with the applicable laws, rules, and regulations, and the requirements specified in the approval issued by the Coast Guard, the District Commander or the Officer in Charge, Marine Inspection, will immediately notify the holder of the approval wherein the specific item fails to meet applicable requirements. If the defects, deficiencies or variations in the item are deemed important, such officer is authorized and may immediately suspend the approval, may require the holder to surrender the certificate of approval (if any), and may direct the holder to cease claiming the defective items are Coast Guard approved, pending a final decision from the Commandant in the matter.

(b) The procedures for appealing the temporary suspension shall be those described in § 2.01-70.

§ 2.75-50 Withdrawals or terminations of approvals and appeals.

(a) The Commandant may withdraw approval for any item which is found not to be in compliance with the conditions of approval, found to be unsuitable for its intended purpose, or does not meet the requirements of applicable regulations.

(b) Approvals of equipment are terminated when the manufacturer is no longer in business, or when the item is no longer being manufactured, or when the approval expires.
