Background

Section 14123 of title 49 of the United States Code (U.S.C.) requires that the Secretary of Transportation collect annual financial reports from certain for-hire motor carriers of passengers. All Class I for-hire motor carriers of passengers, carriers with gross annual operating revenues of \$5 million or more, are required to complete and file a Motor Carrier Annual Report Form MP-1 for Motor Carriers of Passengers (Form MP-1). See 49 CFR 369.3(a) and 369.4(a). The Form MP-1 annual report will be used to collect financial, operating, equipment and employment data from individual motor carriers of passengers.

The data collected will be available to users in its original form. The data are not used by the Department of Transportation, and, based on a comment to a proposed rule finalized on December 17, 2013 (78 FR 76241), the data are no longer used by trucking associations. Insurance companies, consultants, law firms, academia, trade publications and others may use the data to assess industry growth and its impact on the economy, to identify industry changes that may affect

national transportation, and to monitor company financial stability. The Bureau of Economic Analysis (BEA) of the U.S. Department of Commerce uses the data to inform the national annual input-output and Gross Domestic Product (GDP) estimates. BEA uses the data to prepare estimates of industry output and provide details on inputs to supplement the information on motor carriers of passengers collected by the U.S. Census Bureau.

In response to the March 16, 2017 60-day **Federal Register** notice (82 FR 14103), FMCSA received two comments questioning why the Agency continues to require the annual report filing by Class I passenger motor vehicles, despite FMCSA's statement that the data is not used by the Agency. FMCSA's response to the comments is 49 U.S.C. 14123 requires that the Agency collect such annual financial reports.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for FMCSA to perform its functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

Issued under the authority delegated in 49 CFR 1.87 on: July 20, 2017.

G. Kelly Regal,

Associate Administrator for Office of Research and Information Technology.
