Form RD 4288-6 (05-11)

U.S. DEPARTMENT OF AGRICULTURE Rural Development - Energy Division

REPOWERING ASSISTANCE PROGRAM - REPORTING FORM

This form is to be completed by Biorefineries that have been approved for participation in the Repowering Assistance Program. For the purpose of verifying compliance with the fossil fuel reduction and energy production requirements, each biorefinery must make available and provide for the metering of all power and heat producing boilers, containment vessels, generators and any other equipment related to the production of heat or power required to displace fossil fuel loads with renewable biomass.

See Page 3 for Privacy Act and Public Burden Statements.

Part A- Project Information

Part A- Project information				
1. Name of Biorefinery:	2. Agreement Number (from Form RD 4288 - 5):			
3. Mail Address (Regular Mail):	4. Congressional District:			
5. IRS Tax Identification Number:	6. Contact Person:			
7. Contact Person's Title:	8. Telephone No. (Include Area Code)			
The contact is decided in the	o. Totopholio No. (molado / nod obdo)			
9. Period for annual report (Enter beginning and ending dates for period):				
From to				
Down D. Domontino				
Part B, Reporting				

1. Date of completion of the repowering project. (Enter the date on which the biorefinery began the use of biomass as a replacement
for fossil fuels.)
2. Description of the repowering project, as completed. (Describe the equipment installed, including manufacturer's name, rated capacity,
type of energy produced (steam, direct heat, process heat, electricity, etc.), amount of energy expected to be produced by the repowering
project, and percentage of Biorefinery's total energy needs to be generated by the repowering project.)

Form RD 4288-6 Page 2 of 3

3. Describe the metering equipment used to determine the production of usable energy from renewable biomass. (include the type of device(s) and the equipment manufacturer's name and model number, the Serial Number(s) of the equipment, the type of							
	d (steam, electricity, etc.), and the		e.)	, , , , , , , , , , , , , , , , , , ,	110 1,50 0.		
3a. Type of device	3b. Manufacturer's name	3c. Model number	3d. Serial number	3e. Type of energy measured	3f. Units of measure		
4. Actual total costs that are eligible project costs for the Repowering Assistance Program. (Total project costs minus any costs associated with the production of energy that will be sold.)							
	rough 5g provide documentation fing at the beginning and end of the p				duction,		
5a. Type of energy produced	5b. Serial Number of meter used to record energy production	5c. Meter reading at end of period	5d. Meter reading at beginning of period	5e. Energy produced (5c - 5d), give units of measurement	5f. Energy produced in MMBTU		
		Total energy prod	luction for period speci	fied in Block 9 of Part A			
Total energy production for period specified in Block 9 of Part A 5g. For each different unit of measurement shown in Block 5e, provide an example calculation showing the conversion of the measured values to MMBTU.
