Assessment of States' Use of Computer Matching Protocols in SNAP State Survey - Draft

OMB Control No.: 0584-NEW
Expiration Date: xx/xx/xxxx

This survey is about the methods used in your SNAP program to corroborate information you receive. We will use the terms "data matching" and "data sources" frequently throughout. By "data matching" we mean comparing the data you have on a SNAP applicant/recipient to data from another source. By "data sources" we mean numerous state and federal databases, systems, and agencies that provide data on individuals for this purpose.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-XXXX. The time required to complete this information collection is estimated to average (XX) minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
