Informed Consent Document Telephone Follow-up survey (English – Baby Alive)

ZPER is short for the Zika Postpartum Emergency Response. The ZPER Telephone Follow-up study is sponsored by the Centers for Disease Control and Prevention and Puerto Rico Department of Health Division of Maternal, Child and Adolescent Health. We would like to invite you to answer some questions about your experiences since your most recent pregnancy. Your participation can help us learn more about ways to protect women and infants from Zika virus infection and build programs to benefit mothers and babies in Puerto Rico.

We are asking over 1,500 other women in Puerto Rico to answer these same questions. Your name was picked by a computer from a list of women who recently participated in the Puerto Rico Department of Health ZPER hospital survey in the fall of 2016.

Your answers are very important, whether you and your baby have been healthy or sick. We ask that you do the interview because your answers are important, and could help other mothers and babies in the future.

Most questions are about your health and life since the birth of your most recent baby. It takes about 15 - 20 minutes to answer all the questions. Some questions may be sensitive, such as questions about contraceptive use.

You are free to do the survey or not. If you don't want to participate at all, or if you don't want to answer a particular question, that's okay. There is no penalty or loss of benefits for not participating or answering all questions.

Your answers will be grouped with those from other women. The answers you provide are anonymous, your name will not be on any reports from PRAMS-ZPER. Your survey may be combined with additional information the health department has from other sources.

If you choose to do the survey, your answers will be kept private to the extent allowed by law and will be used only for research. What we learn from the Zika Postpartum Emergency Response Telephone Follow-up Survey will be used to plan programs to help mothers and babies in Puerto Rico.

If you have questions about the ZPER Telephone Follow-up survey, please call Beatriz Salvesen, the Puerto Rico ZPER Project Coordinator, at 787-765-2929, extension 4672.

If you have any questions about your rights in the project, please call the Human Research Subjects Protection Office at 787-758-2525, extension 2510 and 2515.

4. Shall we begin?

YES → CONTINUE TO PART III

NO → SAY: "If this is not a good time to talk, I can call back later."

TRY TO SCHEDULE A CONVENIENT TIME TO INTERVIEW MOTHER.

1. THANK RESPONDENT.

2. ENTER APPROPRIATE CODE ON TELEPHONE INTERVIEW FORM:

- RECORD IF NO TIME SCHEDULED FOR CALL BACK.
- RECORD IF TIME SCHEDULED FOR CALL BACK.
- RECORD IF MOM WILL CALL PRAMS-ZPER OFFICE.

IF MOTHER DOES NOT WANT TO DO INTERVIEW LATER, THEN:

1. THANK THE RESPONDENT
2. ENTER THE APPROPRIATE CODE ON TELEPHONE INTERVIEW FORM:
 - RECORD IF HARD REFUSAL.
 - RECORD IF JUDGED A SOFT REFUSAL TO BE FOLLOWED-UP.
3. NOTE THE REASON FOR REFUSAL

Your answers are very important, whether you and your baby have been healthy or sick.

We understand that your baby passed away. We are truly sorry about your loss and offer our sympathy and condolences to you and your family. We also ask that you complete the interview because your answers are important, and could help other women that are going through similar experiences.

Most questions are about your health and life since your most recent delivery. It takes about 15 - 20 minutes to answer all the questions. Some questions may be sensitive, such as questions about contraceptive use.
