INTRODUCTION

Hello, my name is _____ and I work for Westat, a survey research company in Rockville, Maryland. Thank you for taking the time to participate in this research study. Westat is working with the Agency for Healthcare Research and Quality (AHRQ) which is the lead Federal agency charged with improving the safety and quality of America's health care system. AHRQ has developed some new questions for a national survey of medical expenditures known as the Medical Expenditure Panel Survey. It is important to try out these questions with the help of people such as yourself to ensure that they make sense, are easy to answer, and that everyone understands the questions the same way.

If you agree to take part in this study, I will ask the survey questions of you and then of other people in your household. I may also refer to some of the information about you and your household that you shared when our recruiter spoke with you. Finally, I'll talk with you about how you answered the survey questions. There are no right or wrong answers. Our purpose is not to compile information on you. Instead, your interview along with those of others will show us how to improve these questions.

INFORMED CONSENT

Before we get started, there are a few things I should mention. This is a research project, and your participation is voluntary. If you prefer not to answer any questions just say so and we'll go on to the next one. It's also okay if you change your mind after starting and would rather not participate. All your answers, everything you say, will be kept confidential. We will not use your name or other identifying information in any reports. The interview will take about 60 minutes and you will receive \$60. We will also need to audio record our conversation. This helps me so I can listen to what you are saying and won't have to take a lot of detailed notes while you are talking; it will also help when we write up a summary of this interview. Only project staff will have access to the recording and other project materials. These materials will be destroyed once we have completed the project {Finally, some of the project staff from AHRQ and healthcare researchers from other Federal agencies are here today observing our interview to learn if there are things that might need to be changed to improve the survey questionnaire.}

HAND CONSENT FORMS TO RESPONDENT. This form contains all of the things I just told you about your rights in this interview. Please read it over and sign both copies if you are willing to take part in the study.

HAVE R SIGN TWO CONSENT FORMS, KEEP ONE AND RETURN ONE TO I'ER.

TURN ON RECORDER. The date and time is_____. Now that the recorder is running, let me ask again, is it okay with you if we record this interview?

Section 2: Understanding the household situation

Let's set these survey questions aside for the moment and I'd like for you just in your own words to describe all the different health insurance plans that everyone in your household has, including any supplemental plans or additional coverage plans. Make sure I understand what they're called, what they cover, whose name they're in, and who is on which plan. I would also be interested to know if you or members of your household have changed (or been without health coverage at all since February 1st 2017).

INTERVIEWER: ENSURE YOU HAVE ESTABLISHED HEALTH COVERAGE MATRIX FOR HOUSEHOLD

- Policy type
- Policy holder
- Dependents
- HH or non HH members
- Job type

IF NECESSARY (no HH member reported as a dependent):

- Is anyone covered as a dependent under the policies we have discussed?
 - o Who is that?

PROBE: Situation if policy holder not a household member

IF NECESSARY:

- You mentioned that someone in the family is covered by a health insurance plan of someone not living here. How does that policyholder get this insurance?

IF NECESSARY Job (Not Military)

- Whose job/policy holder?
- Is policy holder currently employed at the job, previously employed at job/retired from job, some other situation?
- Under {your/PERSON's} plan, does the plan cover {you/them} to go to any provider or does it only pay if {you/they}they go to certain providers?

PROBE: Industry: government or state, private sector etc.

PROBE:

If at least one person in the household has health coverage obtained through Maryland Health connection (HX250 = YES) ask respondent to explain the process they went through to obtain that health coverage and whether they think of it as public or private health coverage.

PROBE:

If at least one person in the household has no health coverage, ask respondent to explain why they have no coverage and establish length of time without coverage.

If at least one person in the household has been in and out of coverage (HQ) ask respondent to explain further why they are in and out of coverage and establish length of time without coverage, even if just for one day?

IF DK OR NOT SURE OF COVERAGE OR COVERAGE DETAIL FOR OTHER HOUSEHOLD MEMBERS

- Discuss reasons for lack of knowledge e.g. relationship with HH member.
- Ask if R could provide any information at all about other households members and establish what knowledge is known e.g., name of plan / public or private. Follow up on probe to HX230 asking for best guess.
- Ask if anyone else in the household (besides the person you are talking about) would know whether they had health coverage or not. Why does this other person have more information?

If a household member was not reported or reported incorrectly as not having health coverage during initial questioning.

IF NECESSARY:

- **At the start of this interview you did not initially report health coverage for [NAME]. Was there anything in particular about this person's situation that made it difficult for you to report on them?**

COMPARE EMPLOYMENT INFORMATION AND AGE RECORDED IN SCREENER WITH COVERAGE REPORTED AND CLARIFY ANY POSSIBLE DISCREPANCIES E.G.:

- HH member has military service but no military service coverage reported, or vice versa.
- HH member is 65 or over but not reported to have Medicare.

25 minutes

Section 3: Retrospective Probing

INTERVIEWER: IF ANY OF THE FOLLOWING ISSUES HAVE ALREADY BEEN ADDRESSED YOU CAN SKIP THAT QUESTIONING.

Now I would like to ask you some specific questions about the survey questions we're testing, the ones you answered at the start of this interview.

ALL RESPONDENTS

HX210 (CoverNow and CoverPast)

(I began by asking you whether you or members of your household were currently covered by any kind of health plan or health coverage that includes hospital and physician benefits.)

PROBE:

- **We used the phrase “health plan or health coverage” in the questions. What does that phrase mean to you?**
- **Do the terms “health plan” and “health coverage” mean the same thing or are they different? In what way are they different?**
- **Do these terms mean the same as “health insurance” or do they have a different meaning to you?**
- **When answering the questions did you consider whether the “health plan” or “health coverage” you were thinking about included hospital and physician benefits?**
- **What do you understand by ‘hospital and physician benefits’?**

FOR THOSE WHO PROVIDED A RESPONSE TO COVERPAST:

- **How easy or difficult was it for you to remember whether {you/other people} in your household were covered since February 1 of this year? What made it easy or difficult?**

ALL RESPONDENTS – CARD SORT

HX215

CARD SORT

I am now going to provide you with a set of cards. Each card describes a different source of health coverage. Please look at each card one at a time and place each card under the heading that best describes that source. As you place the card under each heading talk me through your thinking and tell me what made you decide to put it there. The headings are: coverage through a job, coverage through the government or state, coverage that is privately purchased or coverage obtained some other way. This is not a test. There are no right or wrong answers. If you do not recognize the source or do not know anything about it please place it under the “not sure” heading.
