Federal Fiscal Year \*

The Health Homes provision, authorized by section 2703 of the Affordable Care Act (section 1945 of the Social Security Act), provides an opportunity to build a person-centered care delivery model that focuses on improving outcomes and disease management for beneficiaries with chronic conditions. The Health Homes core set of quality measures will be used to evaluate care across all state Health Homes programs. Specifically, section 2703 requires Health Homes providers to report health care quality measures in order to receive payment. The recommended Health Homes core set will require reporting at the Health Homes provider level which the state will collect and aggregate at the Health Homes program level.
