1. Data Source

1.1 Hybrid Data Source Screen

The screenshot displays the 'Hybrid Data Source Screen' with a navigation bar at the top containing 'News', 'Tasks (5)', 'Records', 'Reports', and 'Actions'. The 'Records' tab is active. On the right side of the navigation bar, there is a user profile icon and the name 'Applan'. The main content area is divided into two columns. The left column contains a list of data sources with checkboxes: 'Hybrid (Administrative and Medical Records Data)' and 'Other', both of which are checked. Below this list is a 'Date Range' label. The right column contains two sections. The first section is titled 'From where is the Administrative Data coming?' and includes the instruction 'Must select one or more'. It has two checked options: 'Medicaid Management Information System (MMIS)' and 'Other'. Below these options is a text input field with a 'Character count: 0/2000' label. The second section is titled 'From where is the Medical Records coming?' and includes the instruction 'Must select only one'. It has three radio button options: 'Electronic Health Record (EHR) Data' (which is selected), 'Paper', and 'Both (EHR and Paper)'. Below these options is another text input field with a 'Character count: 0/2000' label. At the bottom right of the form area, there is a '+/-' expand/collapse control.
