1.5 Performance Measure

Performance Measure

[Collapse](#)

Percentage of emergency department(ED) visits for beneficiaries age 18 and older who had a principal diagnosis of mental illness or alcohol or other drug(AOD) abuse or dependence, and who had a follow-up visit with a corresponding principal diagnosis for mental illness or AOD. Four rates are reported:

- Mental Illness
 - Percentage of ED visits for mental illness for which the beneficiary had a received follow-up visit for mental illness for which the beneficiary received follow-up or AOD within 7 days of the ED visit (8 total days).
 - Percentage of ED visits for mental illness for which the beneficiary received follow-up within 30 days of the ED visit (31 total days).
- Alcohol and Other Drug Abuse or Dependence
 - Percentage of ED visits for AOD abuse or dependence for which the beneficiary received follow-up within 7 days of the ED visit(8 total days).
 - Percentage of ED visits for AOD abuse or dependence for which the beneficiary received follow-up within 30 days of the ED visit(31 total days).

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

7- day follow-up after ED visit for mental illness

Ages 18-64

Numerator	Denominator	Rate
0	0	0

Ages 65 and older

Please explain why data was not entered for this numerator/denominator/rate set *
