## 1.4 Performance Measure – Path 1 – Screenshot 1

The screenshot shows a web interface for a performance measure. At the top, there is a navigation bar with 'News', 'Tasks (3)', 'Records', 'Reports', and 'Actions'. A user profile icon for 'Appian' is in the top right. The main heading is 'Performance Measure'. Below this, there is a description: 'Percentage of Medicaid/CHIP deliveries of live births on or between November 6 of the year prior to the measurement year and November 5 of the measurement year that had the following number of expected prenatal visits:'. A bulleted list follows:
 

- <21 percent of expected visits
- 21 percent to 40 percent of expected visits
- 41 percent to 60 percent of expected visits
- 61 percent to 80 percent of expected visits
- ≥ 81 percent of expected visits

 Below the list, there is a note: 'Enter rate values to one decimal place (XXX). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.' The first category, '< 21 percent of expected visits', is selected with a checkbox. Below it is a text input field with the prompt 'Please explain why data was not entered for this numerator/denominator/rate set \*' and a character count of '0/4000'. The second category, '21 percent to 40 percent of expected visits', is also selected with a checkbox and has a similar text input field and character count. The third category, '41 percent to 60 percent of expected visits', is selected with a checkbox and has a similar text input field and character count. The interface is partially obscured by a vertical scrollbar on the right side.

Figure 4 : Performance Measure – Path 1 – Screenshot 1

## 1.5 Performance Measure – Path 1 – Screenshot 2

This screenshot shows the bottom portion of the performance measure interface. It continues from the previous screenshot. The first category shown is '61 percent to 80 percent of expected visits', which is selected with a checkbox. Below it is a text input field with the prompt 'Please explain why data was not entered for this numerator/denominator/rate set \*' and a character count of '0/4000'. The second category shown is '≥ 81 percent of expected visits', which is also selected with a checkbox. Below it is another text input field with the same prompt and character count. The interface is partially obscured by a vertical scrollbar on the right side.

Figure 5: Performance Measure – Path 1 – Screenshot 2

## 1.6 Performance Measure – Path 2

Percentage of Medicaid/CHIP deliveries of live births on or between November 6 of the year prior to the measurement year and November 5 of the measurement year that had the following number of expected prenatal visits:

- < 21 percent of expected visits
- 21 percent to 40 percent of expected visits
- 41 percent to 60 percent of expected visits
- 61 percent to 80 percent of expected visits
- ≥ 81 percent of expected visits

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

< 21 percent of expected visits

Numerator	Denominator	Rate
0	0	0

21 percent to 40 percent of expected visits

Numerator	Denominator	Rate
0	0	0

41 percent to 60 percent of expected visits

Numerator	Denominator	Rate
0	0	0

61 percent to 80 percent of expected visits

Numerator	Denominator	Rate
0	0	0

≥ 81 percent of expected visits

Numerator	Denominator	Rate
0	0	0

Figure 6: Performance Measure – Path 2

## 1.7 Deviations from Measure Specifications – Screenshot 1

Did your calculation of the measure deviate from the measure specification in any way? \*

Yes  
 No

Please select and explain the deviation(s)

< 21 percent of expected visits

Numerator

Explain \*

Denominator

Explain \*

Other

Explain \*

21 percent to 40 percent of expected visits

Numerator

Explain \*

## 1.9 Deviations from Measure Specifications – Screenshot 3

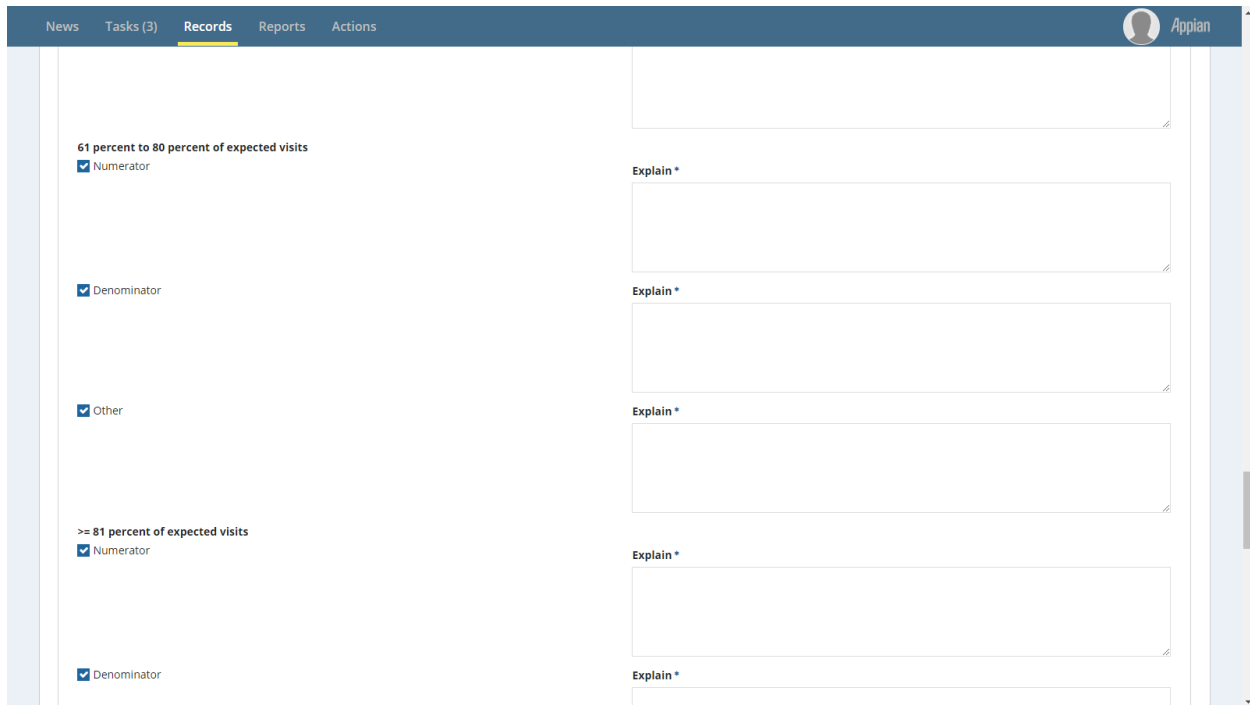

Figure 9: Deviations from Measure Specifications – Screenshot 3

## 1.10 Deviations from Measure Specifications – Screenshot 4

The screenshot shows a user interface with a top navigation bar containing 'News', 'Tasks (3)', 'Records', 'Reports', and 'Actions'. The 'Records' tab is active. Below the navigation bar, there are two sections: 'Denominator' and 'Other', each with a checked checkbox. To the right of each section is a large text area labeled 'Explain \*' for providing details about the deviation.

Figure 10: Deviations from Measure Specifications – Screenshot 4

## 1.11 Optional Measure Stratification – Screenshot 1

Note: Same N/D/R sets are displayed under each of the stratification categories

The screenshot displays the 'Optional Measure Stratification' section. It includes instructions on how to report rates and a table for data entry. The table has columns for 'Classification/Sub-category', 'Numerator', 'Denominator', and 'Rate'. Below the table are checkboxes for various racial and ethnic groups, with 'Race (Non-Hispanic)' and 'White' selected.

Classification/Sub-category	Numerator	Denominator	Rate	
< 21 percent of expected visits	0	0	0	Clear Row
21 percent to 40 percent of expected visits	0	0	0	Clear Row
41 percent to 60 percent of expected visits	0	0	0	Clear Row
61 percent to 80 percent of expected visits	0	0	0	Clear Row
>= 81 percent of expected visits	0	0	0	Clear Row

Below the table, there are checkboxes for the following categories:

- Race (Non-Hispanic)
  - White
  - Black or African American
  - American Indian or Alaska Native
  - Asian
  - Native Hawaiian or Other Pacific Islander
  - + Additional Race(s)
- Ethnicity
  - Hispanic or Latino
  - Not Hispanic or Latino
  - + Additional Ethnicities

### Report Documents

+/-

**Saved Documents**

- Maximum documents that can be uploaded for this report: 84
- Maximum file size: 2MB
- Valid file extensions: pdf, ppt, doc, docx, xls, xlsx, pptx

<input type="checkbox"/>	Name	Description	Date Created	Updated By	Size	Type
No items available						

**Would you like to validate the core measure data at this time?**

Yes  No

(Note: While the measure does not need to be validated at this time in order to proceed, each measure must be validated for the measure to be marked as 'complete' and before the report can be submitted to CMS).

Warning: Any field containing more than 4000 characters will be truncated when saved.
