## 1.3 Data Source

Figure 3: Data Source

# 1.4 Date Range

The screenshot shows a web interface with a dark blue header. On the left, there are navigation tabs: 'News', 'Tasks (13)', 'Records', 'Reports', and 'Actions'. The 'Reports' tab is selected. On the right of the header, there is a user profile icon and the name 'Appian'. Below the header, the page title 'Date Range' is displayed in blue. To the right of the title is a 'Collapse' link. A paragraph of text explains that states should report start and end dates for the measurement period, and that some measures require a 'look-back period'. Below this text, there are two sections: 'Start Date' and 'End Date'. Each section contains two dropdown menus: 'Select Month' and 'Select Year'. Below each dropdown menu, the words 'Month' and 'Year' are displayed.

Figure 4: Date Range

# 1.5 Definition of Population Included in the Measure

**Definition of Population Included in the Measure** Collapse

**Definition of Denominator \***

Denominator includes CHIP (Title XXI) population only

Denominator includes Medicaid (Title XIX) population only

Denominator includes CHIP and Medicaid (Title XIX)

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded

**Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure? \***

Yes

No

**Explain which populations are excluded and why \***

**Specify Total Measure Eligible Population \***

**Which delivery systems are represented in the Denominator? \***

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

Fee-for-Service

Primary Care Case Management (PCCM)

Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

Integrated Care Models (ICM)

Other

**Percentage of total state FFS population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Percentage of total state PCCM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Number of Health Plans \***

**Percentage of total state MCO/PIHP population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Percentage of total state ICM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Describe \***

**Percentage of total other population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery systems. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**If applicable, list the number of Health Plans represented**

Figure 5: Definition of Population Included in the Measure

## 1.6 Performance Measure

News Tasks (9) Records Reports **Actions**

Appian

### Performance Measure

Collapse

Percentage of newborns who did not pass hearing screening and have an audiological evaluation no later than 3 months of age (90 days).

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Numerator	Denominator	Rate
0	0	0

## 1.7 Deviations from Measure Specifications

### Deviations from Measure Specifications

Collapse

Did your calculation of the measure deviate from the measure specification in any way? \*

Yes  
 No

Please select and explain the deviation(s)

0 - 3 Months  
 Numerator

Denominator

Other

Explain \*

Explain \*

Explain \*

Figure 7: Deviations from Measure Specifications

## 1.8 Combined Rate(s) from Multiple Reporting Units

News Tasks (13) Records Reports **Actions** Appian

**Combined Rate(s) from Multiple Reporting Units** Collapse

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? \*

Yes  
 No

If yes, indicate whether the state-level rate is weighted

The rates are weighted based on the size of the measure-eligible population for each reporting unit  
 The rates are weighted based on another weighting factor

Describe the other weighting factor:

The rates are not weighted

Figure 8: Combined Rate(s) from Multiple Reporting Units

## 1.9 Additional Notes/Comments on Measure

News Tasks (13) Records Reports **Actions** Appian

**Additional Notes/Comments on Measure (Optional)** Collapse

Character count: 0/4000
