**Date Range** [Collapse](#)

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

# 1.6 Definition of Population Included in the Measure

## Definition of Population Included in the Measure

Collapse

**Definition of Denominator \***

- Denominator includes CHIP (Title XXI) population only
- Denominator includes Medicaid (Title XIX) population only
- Denominator includes CHIP and Medicaid (Title XIX)

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded

**Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure? \***

- Yes
- No

**What is the sample size? \***

**What is the measure-eligible population? \***

**Which delivery systems are represented in the Denominator? \***

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

- Fee-for-Service
  
- Primary Care Case Management (PCCM)
  
- Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)
  
- Integrated Care Models (ICM)
  
- Other

**Explain which populations are excluded and why \***

**Percentage of total state FFS population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Percentage of total state PCCM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Number of Health Plans \***

**Percentage of total state MCO/PIHP population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Percentage of total state ICM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Describe \***

**Percentage of total other population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**If applicable, list the number of Health Plans represented**

Figure 6: Definition of Population Included in the Measure

# 1.7 Performance Measure

Performance Measure

Percentage of adolescents ages 12 to 21 who had at least one comprehensive well-care visit with a PCP or an OB/GYN practitioner during the measurement year.

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Numerator	Denominator	Rate
0	0	0

Figure 7: Performance Measure

# 1.8 Deviations from Measure Specifications

Deviations from Measure Specifications

Did your calculation of the measure deviate from the measure specification in any way? \*

Yes  
 No

Please select and explain the deviation(s)

12 - 21 Years
