Date Range Collapse

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

1.5 Definition of Population Included in the Measure

Definition of Population Included in the Measure

Collapse

Definition of Denominator *

Denominator includes CHIP (Title XXI) population only
 Denominator includes Medicaid (Title XIX) population only
 Denominator includes CHIP and Medicaid (Title XIX)

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded

Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure? *

Yes
 No

What is the sample size? *

What is the measure-eligible population? *

Which delivery systems are represented in the Denominator? *

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

| | |
|---|--|
| <input checked="" type="checkbox"/> Fee-for-Service | <p>Percentage of total state FFS population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 5px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> |
| <input checked="" type="checkbox"/> Primary Care Case Management (PCCM) | <p>Percentage of total state PCCM population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 5px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> |
| <input checked="" type="checkbox"/> Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP) | <p>Number of Health Plans *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 5px;"></div> <p>Percentage of total state MCO/PIHP population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 5px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> |

1.6 Performance Measure - Path 1

Performance Measure

[Collapse](#)

Percentage of children screened for risk of developmental, behavioral, and social delays using a standardized screening tool in the 12 months preceding or on their first, second, or third birthday.

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Children screened by 12 months of age

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Children screened by 24 months of age

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Children screened by 36 months of age

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Children Total

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

1.8 Deviations from Measure Specifications – Screenshot 1

Figure 8: Deviations from Measure Specifications – Screenshot 1

1.9 Deviations from Measure Specifications – Screenshot 2

The screenshot shows a web application interface with a dark blue header. The header contains navigation tabs: 'News', 'Tasks (3)', 'Records' (highlighted), 'Reports', and 'Actions'. On the right side of the header is a user profile icon and the name 'Appian'. The main content area is split into two columns. The left column contains a list of deviation categories, each with a checked checkbox: 'Denominator', 'Other', 'Children screened by 36 months of age' (with a sub-item 'Numerator'), 'Denominator', and 'Other'. The right column contains five corresponding text input fields, each labeled 'Explain *' at the top left. The interface is clean and professional, with a light blue sidebar on the left and a vertical scrollbar on the right.

Figure 9: Deviations from Measure Specifications – Screenshot 2

1.10 Deviations from Measure Specifications – Screenshot 3

The screenshot shows a web application interface similar to the previous one. The header is identical, with 'Records' highlighted. The main content area shows a list of deviation categories with checked checkboxes: 'Other', 'Children Total' (with a sub-item 'Numerator'), 'Denominator', and 'Other'. The right column contains four corresponding text input fields, each labeled 'Explain *' at the top left. The layout and styling are consistent with the previous screenshot.
