Medicaid and CHIP Child Core Quality Measures - PA - 2018

Request System Help

In an effort to reduce state burden of reporting on the Child Core Set measures, CMS will be calculating this measure for your state based on data submitted as part of the annual EPSDT report (Form CMS-416). If you are unfamiliar with the data reported by your state on the Form CMS-416, CMS encourages communication with the responsible staff to ensure familiarity with the data as it will be reported publicly in the Annual Secretary's Report.

Are you reporting on this measure?

Yes

No

Please explain why you are not reporting on the measure:

Select all that apply (must select at least one)

Service not covered

Population not covered

Data not available

Portion of population not covered

Entire population not covered

Partial population not covered

Explain the partial population not covered

Explain why data not available:

Select all that apply (must select at least one)

Budget Constraints

Staff Constraints

Data Inconsistencies/Accuracy

Please Explain

Data Source Not Easily Accessible

Select all that apply

Requires Medical Record Review

Requires Data Linkage which does not currently exist

Other

Explain

Information Not Collected

Select all that apply

Not Collected by Provider (Hospital/Health Plan)

Other

1.5 Definition of Population Included in the Measure

Definition of Population Included in the Measure

Collapse

Definition of Denominator

- Denominator includes CHIP (Title XXI) population only
- Denominator includes Medicaid (Title XIX) population only
- Denominator includes CHIP and Medicaid (Title XIX)

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded

Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure?

- Yes
- No

Explain which populations are excluded and why

Specify Total Measure Eligible Population

Which delivery systems are represented in the Denominator? *

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

- Fee-for-Service

- Primary Care Case Management (PCCM)

- Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

Percentage of total state FFS population represented

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Percentage of total state PCCM population represented

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Number of Health Plans

Percentage of total state MCO/PIHP population represented

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Percentage of total state ICM population represented

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Describe

Percentage of total other population represented

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

If applicable, list the number of Health Plans represented

- Integrated Care Models (ICM)

- Other

Figure 5: Definition of Population Included in the Measure

1.6 Performance Measure

The screenshot shows the 'Performance Measure' form. At the top, there is a navigation bar with 'News', 'Tasks (3)', 'Records', 'Reports', and 'Actions' (highlighted). A user profile icon for 'Appian' is in the top right. The main heading is 'Performance Measure' with a '+/-' icon. Below the heading is a descriptive paragraph: 'Percentage of individuals ages 1 to 20 who are enrolled in Medicaid or CHIP Medicaid Expansion programs for at least 90 continuous days, are eligible for EPSDT services, and who received at least one preventive dental services during the reporting period.' This is followed by a note: 'Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.' Below this is a table with three columns: 'Numerator', 'Denominator', and 'Rate'. Underneath the table is a text area with the prompt 'Please explain why data was not entered for this numerator/denominator/rate set'.

Figure 6: Performance Measure

1.7 Deviations from Measure Specification

The screenshot shows the 'Deviations from Measure Specifications' form. It has the same navigation bar and user profile as Figure 6. The main heading is 'Deviations from Measure Specifications' with a '+/-' icon. The first question is 'Did your calculation of the measure deviate from the measure specification in any way?' with radio button options for 'Yes' and 'No'. Below this is the instruction 'Please select and explain the deviation(s)'. There are three checkboxes: 'Numerator', 'Denominator', and 'Other'. To the right of each checkbox is a text area labeled 'Explain' for providing details.

Figure 7: Deviations from Measure Specification

1.8 Other Performance Measure

News Tasks (13) Records Reports **Actions**

Other Performance Measure Collapse

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Please describe the other methodology used

Please describe the rate (e.g., 18-64)	Numerator	Denominator	Rate

Figure 8: Other Performance Measure

1.9 Combined Rate(s) from Multiple Reporting Units

News Tasks (13) Records Reports **Actions**

Combined Rate(s) from Multiple Reporting Units Collapse

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate?

Yes

No

If yes, indicate whether the state-level rate is weighted

Must select one

The rates are weighted based on the size of the measure-eligible population for each reporting unit

The rates are weighted based on another weighting factor

Describe the other weighting factor:

The rates are not weighted

Figure 9: Combined Rate(s) from Multiple Reporting Units
