# 1. Prenatal and Postpartum Care: Timeliness of Prenatal Care (PPC-CH) Screenshots

## 1.1 Measurement Specifications – Path 1

The screenshot shows a form titled "Measurement Specification". On the left, there are two radio button options: "National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)" which is selected, and "Other". On the right, there is a dropdown menu labeled "Specify version of HEDIS used" with the text "Select Year" below it. A "+/-" icon is visible in the top right corner of the form area.

Figure 1: Measurement Specifications – Path 1

## 1.2 Measurement Specifications – Path 2

The screenshot shows a web application interface. At the top, there is a navigation bar with "News", "Tasks (3)", "Records", "Reports", and "Actions" (which is highlighted). On the right of the navigation bar is a user profile icon and the name "Appian". Below the navigation bar is a form titled "Measurement Specification". On the left, there are two radio button options: "National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)" and "Other", with "Other" selected. On the right, there is a text area with a "Collapse" link above it. The text area contains the instruction: "Please describe the specifications that were used to calculate the measure and explain how they deviated from Core Set specifications. If you need additional space to describe your state's methodology, please attach a document to this report in the Report Documents section at the bottom of the screen." Below the text area is a large empty text box for input.

### 1.4 Date Range

News Tasks (13) Records Reports Actions
 Applan

**Date Range**

Collapse

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

**Start Date**

Month Year

**End Date**

Month Year

# 1.5 Definition of Population Included in the Measure

**Definition of Population Included in the Measure**
Collapse

**Definition of Denominator \***

Denominator includes CHIP (Title XXI) population only  
 Denominator includes Medicaid (Title XIX) population only  
 Denominator includes CHIP and Medicaid (Title XIX)

**If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded**

**Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure? \***

Yes  
 No

**What is the sample size? \***

**What is the measure-eligible population? \***

**Which delivery systems are represented in the Denominator? \***

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

<p><input checked="" type="checkbox"/> Fee-for-Service</p>  <p><input checked="" type="checkbox"/> Primary Care Case Management (PCCM)</p>  <p><input checked="" type="checkbox"/> Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)</p>  <p><input checked="" type="checkbox"/> Integrated Care Models (ICM)</p>  <p><input checked="" type="checkbox"/> Other</p>	<p><b>Percentage of total state FFS population represented *</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p><b>Percentage of total state PCCM population represented *</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p><b>Number of Health Plans *</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p><b>Percentage of total state MCO/PIHP population represented *</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p><b>Percentage of total state ICM population represented *</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p><b>Describe *</b></p> <div style="border: 1px solid #ccc; height: 40px; margin-bottom: 10px;"></div> <p><b>Percentage of total other population represented *</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p><b>If applicable, list the number of Health Plans represented</b></p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div>

**Figure 5: Definition of Population Included in the Measure**

## 1.6 Performance Measure

**Performance Measure** +/-

The percentage of Medicaid/CHIP deliveries of live births on or between November 6 of the year prior to the measurement year and November 5 of the measurement year that had a prenatal care visit in the first trimester, on the enrollment date, or within 42 days of enrollment in Medicaid/CHIP.

Enter rate values to one decimal place (XXX). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Numerator	Denominator	Rate
0	0	0

Figure 6: Performance Measure

## 1.7 Deviations from Measure Specifications

**Deviations from Measure Specifications** +/-

Did your calculation of the measure deviate from the measure specification in any way? \*

Yes  
 No

Please select and explain the deviation(s)

As per the measure specifications

Numerator

Denominator

## 1.8 Combined Rate(s) from Multiple Reporting Units

News Tasks (13) Records Reports **Actions** Appian

### Combined Rate(s) from Multiple Reporting Units Collapse

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate?\*

Yes  
 No

If yes, indicate whether the state-level rate is weighted

The rates are weighted based on the size of the measure-eligible population for each reporting unit  
 The rates are weighted based on another weighting factor

Describe the other weighting factor:

•

The rates are not weighted

Figure 8: Combined Rate(s) from Multiple Reporting Units

## 1.9 Additional Notes/Comments (Optional)

News Tasks (13) Records Reports **Actions** Appian

The rates are not weighted

### Additional Notes/Comments on Measure (Optional) Collapse

Character count: 0/4000
