## 1.5 Performance Measure

**Performance Measure** Collapse

The following components of this measure assess different facets of providing medical assistance with smoking and tobacco use cessation:

- Advising Smokers and Tobacco Users to Quit – A rolling average represents the percentage of beneficiaries age 18 and older who were current smokers or tobacco users and who received advice to quit during the measurement year
- Discussing Cessation Medications – A rolling average represents the percentage of beneficiaries age 18 and older who were current smokers or tobacco users and who discussed or were recommended cessation medications during the measurement year
- Discussing Cessation Strategies – A rolling average represents the percentage of beneficiaries age 18 and older who were current smokers or tobacco users and who discussed or were provided cessation methods or strategies during the measurement year

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.
