1.5 Date Range

Date Range

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

- Denominator includes Medicaid population
- Denominator includes CHIP population (e.g. pregnant women.)
- Denominator includes Medicare and Medicaid Dually-Eligible population
- Other

Does this denominator represent your total measure eligible population as defined by the Technical Specifications for this measure? *

Yes
 No

Which delivery systems are represented in the Denominator? *
 Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.
