## 1.6 Definition of Population Included in the Measure – Screenshot 2

Primary Care Case Management (PCCM)

Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

Integrated Care Models (ICM)

Other

**Percentage of total state PCCM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Number of Health Plans \***

**Percentage of total state MCO/PIHP population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Percentage of total state ICM population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**Describe \***

**Percentage of total other population represented \***

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

**If applicable, list the number of Health Plans represented**

Figure 6: Definition of Population Included in the Measure – Screenshot 2

## 1.7 Performance Measure - Path 1

News Tasks (3) Records Reports Actions

 Appian

**Performance Measure** +/-

Percentage of children newly prescribed attention-deficit/hyperactivity disorder (ADHD) medication who had at least three follow-up care visits within a 10-month period, one of which was within 30 days of when the first ADHD medication was dispensed. Two rates are reported.

Initiation Phase: Percentage of children ages 6 to 12 as of the Index Prescription Start Date (IPSD) with an ambulatory prescription dispensed for ADHD medication who had one follow-up visit with practitioner with prescribing authority during the 30-day Initiation Phase.

Continuation and Maintenance (C&M) Phase: Percentage of children ages 6 to 12 as of the IPSD with an ambulatory prescription dispensed for ADHD medication who remained on the medication for at least 210 days and who, in addition to the visit in the Initiation Phase, had at least two follow-up visits with a practitioner within 270 days (9 months) after the Initiation Phase ended.

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Initiation Phase

**Please explain why data was not entered for this numerator/denominator/rate set \***

Character count: 0/4000

Continuation and Maintenance (C&M) Phase

**Please explain why data was not entered for this numerator/denominator/rate set \***

Character count: 0/4000

Figure 7: Performance Measure - Path 1

## 1.8 Performance Measure - Path 2

**Performance Measure**

Percentage of children newly prescribed attention-deficit/hyperactivity disorder (ADHD) medication who had at least three follow-up care visits within a 10-month period, one of which was within 30 days of when the first ADHD medication was dispensed. Two rates are reported.

Initiation Phase: Percentage of children ages 6 to 12 as of the Index Prescription Start Date (IPSD) with an ambulatory prescription dispensed for ADHD medication who had one follow-up visit with practitioner with prescribing authority during the 30-day initiation Phase.

Continuation and Maintenance (C&M) Phase: Percentage of children ages 6 to 12 as of the IPSD with an ambulatory prescription dispensed for ADHD medication who remained on the medication for at least 210 days and who, in addition to the visit in the Initiation Phase, had at least two follow-up visits with a practitioner within 270 days (9 months) after the Initiation Phase ended.

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Initiation Phase

Figure 9: Deviations from Measure Specifications – Screenshot 1

## 1.10 Deviations from Measure Specifications – Screenshot 2

The screenshot shows the 'Actions' tab in the CMS interface. The left sidebar is titled 'Continuation and Maintenance (C&M) Phase' and contains three checked items: 'Numerator', 'Denominator', and 'Other'. The main content area has three 'Explain \*' text boxes corresponding to each item.

Figure 10: Deviations from Measure Specifications – Screenshot 2

## 1.11 Combined Rate(s) from Multiple Reporting Units

The screenshot shows the 'Actions' tab in the CMS interface. The title is 'Combined Rate(s) from Multiple Reporting Units'. It asks 'Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate?\*' with 'Yes' selected. It also asks 'If yes, indicate whether the state-level rate is weighted' with 'The rates are weighted based on another weighting factor' selected. A text box is provided to 'Describe the other weighting factor:'.

Figure 11: Combined Rate(s) from Multiple Reporting Units

## 1.12 Additional Notes/Comments on Measure (Optional)

The screenshot shows the 'Actions' tab in the CMS interface. The title is 'Additional Notes/Comments on Measure (Optional)'. It features a large text area for notes and a 'Character count: 0/4000' indicator at the bottom left.
