1.4 Date Range

News Tasks (14) Records Reports **Actions** 

Date Range Collapse

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

Start Date

| | |
|---|--|
| <input type="text" value="Select Month"/> | <input type="text" value="Select Year"/> |
| Month | Year |

End Date

| | |
|---|--|
| <input type="text" value="Select Month"/> | <input type="text" value="Select Year"/> |

1.5 Definition of Population Included in the Measure

Definition of Population Included in the Measure

Collapse

Definition of Denominator *

- Denominator includes CHIP (Title XXI) population only
- Denominator includes Medicaid (Title XIX) population only
- Denominator includes CHIP and Medicaid (Title XXI)

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded

Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure? *

- Yes
- No

Explain which populations are excluded and why *

Specify Total Measure Eligible Population *

Which delivery systems are represented in the Denominator? *

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

- Fee-for-Service
- Primary Care Case Management (PCCM)
- Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)

Percentage of total state FFS population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Percentage of total state PCCM population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Number of Health Plans *

Percentage of total state MCO/PIHP population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

Percentage of total state ICM population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

- Integrated Care Models (ICM)

- Other

Describe *

Percentage of total other population represented *

The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.

If applicable, list the number of Health Plans represented

Figure 5: Definition of Population Included in the Measure

1.6 Performance Measure

News Tasks (3) **Records** Reports Actions Appian

Performance Measure +/-

Percentage of women ages 16 to 20 who were identified as sexually active and had at least one test for chlamydia during the measurement year.

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

| Numerator | Denominator | Rate |
|-----------|-------------|------|
| 0 | 0 | 0 |

Figure 6: Performance Measure

1.7 Deviations from Measure Specifications

News Tasks (3) **Records** Reports Actions Appian

Deviations from Measure Specifications +/-

Did your calculation of the measure deviate from the measure specification in any way?*

Yes
 No

Please select and explain the deviation(s)

16 - 20 Years

Numerator

Explain *

Denominator

Explain *

Other

Explain *

Figure 7: Deviations from Measure Specifications

1.8 Combined Rate(s) from Multiple Reporting Units

News Tasks (13) Records Reports **Actions**

Combined Rate(s) from Multiple Reporting Units Collapse

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? *

Yes
 No

If yes, indicate whether the state-level rate is weighted

The rates are weighted based on the size of the measure-eligible population for each reporting unit
 The rates are weighted based on another weighting factor

Describe the other weighting factor:

The rates are not weighted

Figure 8: Combined Rate(s) from Multiple Reporting Units

1.9 Additional Notes/Comments on Measure

News Tasks (13) Records Reports **Actions**

Additional Notes/Comments on Measure (Optional) Collapse

Character count: 0/4000
