No table of figures entries found.

1. Immunizations for Adolescents (IMA-CH) Screenshots

1.1 Measurement Specifications – Path 1

The screenshot shows a form titled "Measurement Specification". On the left, there are two radio button options: "National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)" which is selected, and "Other". To the right, there is a dropdown menu labeled "Specify version of HEDIS used" with the text "Select Year" below it. A small "+/-" icon is visible in the top right corner of the form area.

Figure 1: Measurement Specifications – Path 1

1.2 Measurement Specifications – Path 2

The screenshot shows a web application interface. At the top, there is a navigation bar with tabs for "News", "Tasks (3)", "Records", "Reports", and "Actions", with "Actions" being the active tab. A user profile icon and the name "Appian" are in the top right. Below the navigation bar, the page title is "Measurement Specification". On the left, there are two radio button options: "National Committee for Quality Assurance (NCQA) / Healthcare Effectiveness Data and Information Set (HEDIS)" and "Other", with "Other" selected. On the right, there is a text area with a "Collapse" link. The text area contains the instruction: "Please describe the specifications that were used to calculate the measure and explain how they deviated from Core Set specifications. If you need additional space to describe your state's methodology, please attach a document to this report in the Report Documents section at the bottom of the screen." Below this text is a large empty text box for input.

 Appian

Date Range

Collapse

For all measures, states should report start and end dates for the measurement period. For some measures, the specifications require a "look-back period" before or after the measurement period to determine eligibility or utilization. The measurement period entered in the Start and End Date fields should not include the "look-back period."

1.5 Definition of Population Included in the Measure

Definition of Population Included in the Measure
Collapse

Definition of Denominator *

Denominator includes CHIP (Title XXI) population only
 Denominator includes Medicaid (Title XIX) population only
 Denominator includes CHIP and Medicaid (Title XIX)

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded

Does this denominator represent your total measure-eligible population as defined by the Technical Specifications for this measure? *

Yes
 No

What is the sample size? *

What is the measure-eligible population? *

Which delivery systems are represented in the Denominator? *

Select all delivery systems that apply in your state (must select at least one); for each delivery system selected, enter the percentage of the measure-eligible population represented by that service delivery system. For example, if the measure-eligible population represents all managed care enrollees, enter 100 percent for MCO.

<p><input checked="" type="checkbox"/> Fee-for-Service</p> <p><input checked="" type="checkbox"/> Primary Care Case Management (PCCM)</p> <p><input checked="" type="checkbox"/> Managed Care Organization / Pre-paid Inpatient Health Plan (MCO / PIHP)</p> <p><input checked="" type="checkbox"/> Integrated Care Models (ICM)</p> <p><input checked="" type="checkbox"/> Other</p>	<p>Percentage of total state FFS population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p>Percentage of total state PCCM population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p>Number of Health Plans *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p>Percentage of total state MCO/PIHP population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p>Percentage of total state ICM population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p>Describe *</p> <div style="border: 1px solid #ccc; height: 40px; margin-bottom: 10px;"></div> <p>Percentage of total other population represented *</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div> <p style="font-size: x-small;">The percentage provided here should represent the percentage of the denominator population(s) included in the measure (i.e., Medicaid, CHIP, etc.) that receives items/services through the selected delivery system. For example, if the population included in the reported data represents all managed care enrollees and half of your state's fee-for-service enrollees, select managed care and enter 100, and select fee-for-service and enter 50.</p> <p>If applicable, list the number of Health Plans represented</p> <div style="border: 1px solid #ccc; height: 20px; margin-bottom: 10px;"></div>

Figure 5: Definition of Population Included in the Measure

1.6 Performance Measure – Path 1 – Screenshot 1

Performance Measure Collapse

Percentage of adolescents age 13 who had one dose of meningococcal vaccine, one tetanus, diphtheria toxoids and acellular pertussis (Tdap) vaccine, and have completed the human papillomavirus (HPV) vaccine series by their 13th birthday. The measure calculates a rate for each vaccine and two combination rates.

Enter rate values to one decimal place (XX.X). If your rate ends in .0, note that the .0 will not be retained on the screen and the whole number will be displayed instead.

Meningococcal

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Tdap

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Human Papillomavirus (HPV)

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Combination 1 (Meningococcal, Tdap)

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

Combination 2 (Meningococcal, Tdap, HPV)

Please explain why data was not entered for this numerator/denominator/rate set *

Character count: 0/4000

1.9 Combined Rate(s) from Multiple Reporting Units

News Tasks (13) Records Reports Actions

 Appian

Combined Rate(s) from Multiple Reporting Units

Collapse

Did you Combine Rates from Multiple Reporting Units (e.g., health plans, delivery systems, programs) to Create a State-Level Rate? *

- Yes
- No

If yes, indicate whether the state-level rate is weighted

- The rates are weighted based on the size of the measure-eligible population for each reporting unit
- The rates are weighted based on another weighting factor

Describe the other weighting factor:

- The rates are not weighted
