Hospital Outpatient Quality Reporting Program Notice of Participation

Hospitals defined under section 1886(d)(1)(B) of the Social Security Act, known as sub-section(s) hospitals that are paid under the Hospital Outpatient Quality Reporting Program (OQR) requirements. Those hospitals that do not follow the guidelines as outlined in the Federal Register may receive a reduction in the Medicare Annual Payment Update (APU) for the applicable Calendar Year based on the Final Rule. To avoid the reduction in the APU, sub-section(d)k hospitals reimbursed under the OQR must acknowledge a Pledge of Participation including acknowledgement that their reported quality information may be accessible for public viewing as required by Section 1833(t)(17)(E) of the Social Security Act. All OQR requirements are also summarized in the OQR References Checklist available on OualityNet.org.

Hospitals that are not classified as sub-section(d) hospitals (e.g. Critical Access and other non-PPS hospitals) or are subsection (d) hospitals not paid under the OQR (e.g. Indian Health Services hospitals) may also participate in OQR. For these hospitals, outpatient services reimbursement is not at risk, but to submit data under the program, submission of a complete Pledge of Participation is necessary. If a hospital is participating and wants to withdraw, an acknowledgement of a request to withdraw is required.

In the event that the Center for Medicare & Medicaid Services (CMS) makes such information available to the public for viewing, hospitals will be provided the opportunity to preview their information as it is recorded. All such data will be aggregated as determined by CMS.

Under the HQA initiative, data is submitted and catalogued by the CMS Certification Number (Provider ID). Any pledge to participate, not participate, withhold data or withdraw from participation applies to all entities reimbursed under the specified Provider ID.
