SBM Weekly Indicators: Layout for State's Data Submission

This document is the submission format for states with state based marketplaces to submit data to the federal government. This format does not require the submission of individual-level, granular data. The data will be used to assess the Marketplace progress in operational performance, QHP plan premiums and subsidies, and enrollment/eligibility activity for initial years of operations.

QHP Data in this layout are specific to medical QHPs ands stand-alone dental plans (not vision) and coverage offered through the marketplaces (not Medicaid or CHIP coverage).

If no data match the restrictions of a particular data element, enter "-777". If the data are believed to be reportable in the future, but are not reportable at the time that the data are submitted, enter "-888" to indicate the data are not available. If it is not possible to report a data element because of the way the marketplace is operated, enter "-999" to indicate the data elements are not applicable.

Reporting Schedule: Weekly during Open Enrollment; aggregated to 4 weeks of data during other parts of the year. For each report, states should report cumulative data from the start of Open Enrollment (November 15, 2014). The first scheduled reporting due date is November 25, 2014. Questions should be directed to Nick Sukachevin at Nickom. Sukachevin@cms.hhs.gov or Carly Rhyne@cms.hhs.gov
