

Introduction:

My name is [NAME], I work at Mathematica Policy Research. Mathematica is under contract to the U.S. Department of Health and Human Services, Administration for Children and Families to conduct this study to Assess the Implementation and Cost of High Quality Early Care and Education (ECE-ICHQ). Thank you for agreeing to participate in our study. This study will produce measures of implementation and costs that help us better understand how early childhood programs use their resources to make a difference for children's early childhood experiences and outcomes. This interview collects information on what your center is doing to provide quality early care and education services for children ages 0-5.

Do you have any questions for me before we get started? Do you feel you got enough information about the study from [recruiter]?

We have several questions for you about:

1. Center resources
2. Child and family support
3. Instructional planning, coordination, and child assessment
4. Instruction and caregiving
5. Workforce development, leadership activities, and program planning
6. Center administration

We expect that it will take 3 hours to complete this interview.

This interview is completely voluntary. The information we gather through this interview will be used to help estimate the implementation activities that a center does to support quality. All data will be treated in a private manner to the extent permitted by the law. Only members of the research team will have access to your responses. The study team will report estimates of the overall costs and the costs of different program activities and components at an aggregate level. The names of individual programs will not be linked with implementation activities in reports.

I would like to record this conversation to ensure that I capture your response accurately. The recording will not be shared with anyone outside of Mathematica's research team, and we will destroy it at the end of our study. Is that okay with you?

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is 0970-0499 and the expiration date is 08/31/2018.
