30 CFR 75.100, 30 CFR 77.100 (Health and Safety Certification) establish the procedures under which miners are certified to make certain tests and examinations which are required by MSHA regulations to be performed by certified persons. For mines located in states that do not have provisions for certifying miners, 30 CFR 75.100 (c) (1) and 30 CFR 77.100 (b) (2) require mine operators to make application to MSHA to obtain certification for miners who meet certain minimum experience requirements. A certified person is one who has been certified as a Foreman, Asst. Foreman (UG only), or Pre-shift Examiner (UG only).

30 CFR 75.155 and 30 CFR 77.105 (Hoisting Engineers Qualification) establish the procedures under which miners are qualified to operate hoists (Steam Driven/Electrical-UG; Slope & Shaft Sinking Operation-Sur). For mines located in states that do not have provisions for qualifying hoist operators, 30 CFR 75.155/77.105 require mine operators to make application to MSHA to obtain qualification for miners who meet certain minimum experience requirements.

MSHA form 5000-41 provides all mine operators with a standard reporting format which expedites the certification and qualification process while ensuring compliance with regulations. The information provided on the form enables MSHA to determine if miners satisfy the requirements to obtain the certification/qualification sought.
