

Physical injury		
Disease affecting the body	Infectious or parasitic disease	
	Tumor or cancer	
	Other disease or disorder of the body	Disease or disorder affecting the body above the shoulders
		Disease or disorder affecting the body below the shoulders
		Disease or disorder affecting the whole body
Mental health disorder		
Other or unknown	Symptoms without a diagnosis	
	Exposure to disease but no illness	
	Other or unknown	

Injury to brain or spinal cord
Injury to internal organs, bones, or major blood vessels
Injury to the outside of the body, including bruises and cuts
Injury to muscles and joints, including hernias
Damage to a prosthetic or medical device
Burn
Effect of exposure to poison, toxin or allergen
Other or unknown
Bacterial disease
Viral disease
Insect-bite disease
Fungal infection
Worm infection
Intestinal disease, including food poisoning
Other or unknown
Malignant
Benign
Other or unknown
Disease or disorder affecting brain or spinal cord
Disease or disorder affecting sight or hearing
Disease or disorder affecting mouth
Other or unknown
Disease or disorder affecting heart or arteries
Disease or disorder affecting lungs
Disease or disorder affecting stomach, esophagus or other organ
Disease or disorder affecting breasts
Disease or disorder affecting genitals
Disease or disorder affecting kidneys or urinary system
Other or unknown
Disease or disorder affecting blood
Disease or disorder affecting skin
Disease or disorder affecting musculoskeletal system
Other or unknown
Multiple symptoms but no diagnosis
Abnormal results but no diagnosis
Did not receive any test results or diagnosis
Other or unknown

Head	Brain
	Skull or scalp
	Face, including eyes, nose, mouth
	Ears
	Other or unknown
Neck or throat	Throat or other part of the inside of the neck
	Outside of the neck
Torso (mid-section)	Chest, including ribs, internal organs
	Back, including spine, spinal cord
	Abdomen
	Pelvic region
	Other or unknown
Shoulders, arms or hands	Shoulders or collarbone
	Arms
	Wrists
	Hands
	Other or unknown
Hips, legs or feet	Hips
	Legs
	Ankles
	Feet
	Other or unknown
Skin (no damage to the inside of the body)	
Prosthetic or other medical device	
Other or unknown	Functioning of the entire body, such as cardiovascular system
	Other or unknown

Vehicle	Aircraft	
	Rail vehicles	
	Water vehicles	
	Motorized road/offroad vehicles	
	Non-motorized vehicles	
	Unattached vehicle parts	
	Other or unknown	
Ground, walkway, or stairs		
Body of water		
Person, plant or animal	Self	
	Other person	
	Byproduct of plant or animal	
	Plant	
	Animal	
Object, including machine, equipment, or materials	Container, including tank, barrel, and box	
	Furniture and fixtures	
	Heavy machines and equipment	Agricultural or garden machine or equipment
		Construction, logging, or mining machine or equipment
		Heating, cooling, cleaning, and waste handling equipment
		Conveyors, elevators, cranes or other lifting machines
		Warehouse machines
		Metal, woodworking, and special machinery
		Unattached machine or equipment parts
	Other manufacturing machines or equipment	
	Tools	
Materials and small parts		

Structure or part of a structure	Inside a building	Door, window or other structural part
		Confined space, including elevators
Building system, including electrical or		
Other or unknown		
	Not inside a building	
Hazardous or infectious materials, including fumes	Hazardous materials	Explosives
		Gases
		Flammable and combustible liquids and
		Other liquids and solids
		Drugs
		General consumer chemical products
	Other or unknown	
	Infectious materials, including viruses	
Other or unknown		

Industrial vehicles
Road vehicles
Other or unknown
Industrial vehicles
Human- or animal-powered vehicles
Other or unknown
Bodily fluids
All other
Inside of the container
Outside of the container
Furniture and floor or window coverings
Fixtures, including lighting or plumbing
Equipment
Hoisting machine or equipment attachments
Other or unknown
Handling machines or appliances
Hoisting machine or equipment attachments
Other or unknown
Stacking, lifting, or preparing for transport
Wrapping, bottling, or packaging
Material machines
Parts
Pressurizing, refining or related machines or equipment
Flying or orbiting machines or equipment
Hoisting machine or equipment attachments
Other or unknown
Portable ladders and stairs
Recreation and athletic equipment
Audio/Visual equipment
Medical and surgical instruments and equipment
Measurement and scientific devices
Office equipment
Other or unknown
Materials for production or manufacturing
Materials for building
Adhesives, sealants, and paints

equipment

t

Transportation (need instructions on which vehicle to choose)	Incident involving aircraft
	Incident involving a water vehicle
	Incident involving a rail vehicle
	Incident involving a non-motorized vehicle
	Incident involving a car, truck or other motorized road/off-road vehicle
	Other or unknown
Explosion or fire	Explosion
	Fire (without explosion)
	Other or unknown
Violence or harm by a person	Intentional injury by self
	Violence against self by other person
	Witnessing a violent act
	Other or unknown
Slip, trip or fall	Fall to lower level
	Fall on same level
	Slip, trip or stumble without a fall
	Other or unknown
Exposure	Exposure to electricity
	Exposure to radiation and noise
	Exposure to temperature extremes
	Exposure to air or water pressure change
	Exposure to harmful substances
	Exposure to low oxygen levels without harmf
	Exposure to a stressful or traumatic event
Impact or contact	Trapped in a collapsed space
	Struck by a moving object
	Contact with an object, including machines or doors
	Contact with a person by accident
	Contact with an animal
	Extended vibration, friction, pressure, or jarring
	Other or unknown
Overexertion including fainting	Moving an object, including lifting, pushing or pulling
	Position of the body, including sitting and standing
	Repeated motion
	Illness or other condition of the body
	Other or unknown
Other or unknown
