BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2017-0022]

Agency Information Collection Activities: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: National Protection and Programs Directorate, DHS.

ACTION: 60-Day Notice and request for comments; Extension, 1670-0027.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Department of Homeland Security (DHS), National Protection and Programs Directorate (NPPD), Office of the Chief Information Office has submitted a Generic Information Collection Request: "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted until July 5, 2017. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: You may submit comments, identified by docket number DHS-2017-0022, by one of the following methods:

• *Federal eRulemaking Portal:* <http://www.regulations.gov>.

• *Email:* nppd-prac@hq.dhs.gov. Include docket number DHS-2017-0022 in the subject line of the message.

• *Mail:* Written comments and questions about this Information Collection Request should be forwarded to DHS/NPPD/OCISO, ATTN: 1670-0027, 245 Murray Lane SW., Mail Stop 0380, Arlington, VA 20598-0640.

Instructions: All submissions received must include the words "Department of Homeland Security" and the docket number for this action. Comments received will be posted without alteration at <http://www.regulations.gov>, including any personal information provided.

Comments submitted in response to this notice may be made available to the public through relevant Web sites. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an email comment, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. Please note that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

SUPPLEMENTARY INFORMATION: The information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. NPPD is planning to submit this collection to OMB for approval. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study.

This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between NPPD and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: Timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on NPPD's services will be unavailable.

NPPD will only submit a collection for approval under this generic clearance if it meets the following conditions:

1. The collections are voluntary;
2. The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
3. The collections are noncontroversial and do not raise issues of concern to other Federal agencies;
4. Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
5. Personally identifiable information is collected only to the extent necessary and is not retained;
6. Information gathered is intended to be used only internally for general service improvement and program management purposes and is not intended for release outside of the NPPD (if released, NPPD must indicate the qualitative nature of the information);
7. Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
8. Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design

(including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential nonresponse bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing personal information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

This is an extension of an existing information collection. The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Abstract

Respondents to this form supply the USGS with domestic consumption data for 12 metals and ferroalloys, some of which are considered strategic and critical to assist in determining stockpile goals. These data and derived information will be published as chapters in Minerals Yearbooks, monthly Mineral Industry Surveys, annual Mineral Commodity Summaries, and special publications, for use by Government agencies, industry education programs, and the general public.

II. Data

OMB Control Number: 1028-0070.

Form Number: USGS Form 9-4117-MA.

Title: Consolidated Consumers' Report.

Type of Request: Extension without change of a currently approved collection.

Affected Public: Business or Other-For-Profit Institutions: U.S. nonfuel minerals producers.

Respondent Obligation: Participation is voluntary.

Frequency of Collection: Monthly and Annually.

Estimated Number of Annual Responses: 1,407.

Estimated Time per Response: 45 minutes.

Annual Burden Hours: 1,055 hours.

Estimated Reporting and

Recordkeeping "Non-Hour Cost"

Burden: There are no "non-hour cost" burdens associated with this IC.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number and current expiration date.

III. Request for Comments

On January 24, 2017, a 60-day **Federal Register** notice (82 FR 8205) was published announcing this information collection. Public comments were solicited for 60 days ending March 27, 2017. We did not receive any public comments in response to that notice. We again invite comments as to: (a) Whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) the accuracy of the agency's estimate of the burden time to the proposed collection of information; (c) how to enhance the quality, usefulness, and clarity of the information to be collected; and (d) how to minimize the burden on the respondents, including the use of

automated collection techniques or other forms of information technology.

Please note that the comments submitted in response to this notice are a matter of public record. Before including your personal mailing address, phone number, email address, or other personally identifiable information in your comment, you should be aware that your entire comment, including your personally identifiable information, may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public view, we cannot guarantee that we will be able to do so.

IV. Authorities

The authorities for this collection are:

- National Materials and Minerals Policy, Research and Development Act of 1980 (30 U.S.C. 1601 *et seq.*)
- National Mining and Minerals Policy Act of 1970 (30 U.S.C. 21(a))
- Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 *et seq.*)
