U.S. Department of Education

August, 2016

## **Section B. Description of Statistical Methodology**

### **B.1. Respondent Universe**

The primary universe of interest for *EDFacts* consists of the State Education Agencies, the District of Columbia, Puerto Rico, the Department of Defense Education Agency, Bureau of Indian Education, and the outlying areas and freely associated states. In total there are 61 respondents.

### **B.2. Statistical Methodology**

There is no sampling or estimation done for the *EDFacts* collection.

### **B.3. Methods to Maximize Response Rates**

*EDFacts* response rates for state education agencies are consistently 100%.

### **B.4. Tests of Procedures and Methods**

There are no statistical procedures or methods utilized by *EDFacts*.

### **B.5. Reviewing Individuals**

Listed below are individuals who reviewed, in whole or in part, the original *EDFacts* data collection as part of their membership in the Education Information Management Advisory Committee (EIMAC) *EDFacts* Task Force.

Members of the *EDFacts* Governance Board (EDGB) and NCES *EDFacts* Program Office Liaisons are assisting in reviewing revisions to the package documentation as a result of ESEA, as amended by ESSA. In addition, OESE hosted Information Collection Workgroup meetings attended by individuals from across ED offices to draft the new data elements included in the revised package and held weekly briefings about the proposed data elements with OESE and OPEPD leadership. In many cases, members of the IC Workgroups were also members of the regulations development workgroups. An overall briefing of package revisions was presented to EDGB members.

Rob Curtin - Massachusetts Department of Elementary and Secondary Education
