ATTACHMENT B-4

***EDFacts* Data Categories
for School Year 2016-17**

OMB No. 1850-0925 v.2

INTRODUCTION

This attachment contains the information on the data categories. For each data category, there is a table that provides the definitions, permitted values, and a list of the data groups that use that category. To make this document easier to use, the first section contains data categories that are used throughout the data set. The later sections are organized into the same topics used in Attachment B-3. Within each section, the data categories are listed in alphabetical order.

Items marked as **Retired!** are no longer being collected in SY 2016-17. Categories in this Attachment are retired because the associated Data Group was retired.

Items marked as **Revised! 60** were revised prior to the 60 day comment period and items marked **Revised! 30** were revised prior to the 30 day comment period. All revisions are technical corrections from the previously approved package.

Items marked as **Final!** were revised after the 30 day comment period and include only small technical corrections.

The following is an index of the data categories in this attachment.

CATEGORIES USED THROUGHOUT THE DATA SET

Age, Age/Grade Level, and Grade Level Categories

Some data are aggregated by the age or grade level of the students. The tables below provide the ranges of ages or grade levels for these categories.

Age – Some data are aggregated by the age of the students. The table below provides the ranges of ages included for these categories. Below the information on the range of ages is a list of the data groups (including file numbers) using that category. Age is defined as “the discrete age of students (children).”

Age (Early Childhood) is defined as “the discrete age of children (students) who are in early childhood on the state specified child count date.”

Age (School Age) is defined as “the discrete age of children (students) who are school age on the state specified child count date.”

Age (Exiting) is defined as “the discrete age of children (students) on the date of the most recent IDEA child count prior to exiting special education.”

Age Group is defined as “the age range of students (children).”

Age (PK) is defined as “the age ranges of children who are younger than age 5.”

Grade Level – Some data are aggregated by the grade level of the students. The tables below provide the ranges of grade levels included for these categories with one exception. The grade level category for assessments is in a separate table. Below the information on the range of grade levels is a list of the data groups (including file numbers) using that category.

Grade Level (Membership) - The grade level (primary instructional level) of students entering and receiving services in a school during a specific academic session.

Grade Level (Basic w/13) – The grade level (primary instructional level) of students

Grade Level (Dropout) – The grade level (primary instructional level) of students at which students decided to leave school before graduating

Age/Grade Level – Some data are aggregated by a combination of ages and grade level of the students. The table below provides the ranges of ages and grade levels included for these categories. Below the information on the range of ages and grade levels is a list of the data groups (including file numbers) using that category. Some data groups use more than one age/grade level category (e.g. category set A uses age/grade (w/o13) while category set B uses age/grade w/o13 and BT2).

The following revision in Age/Grade (w/o 13 and BT2) was a text change from “BT3” to “BT2.” The children included in the group remain unchanged. The revision is to align with steward office preference.

- BT2 is Birth through Two
- BT3 is Birth to Three

The following revision in Age/Grade (w/o 13 and out of school) was to spell out “OOS.”
