<b>Explanation of difference</b>		
<b>Program change</b>		NA
<b>Adjustment</b>		NA
<b>Other change**</b>		
<p>The 2012/17 Beginning Postsecondary Students Longitudinal Study (BPS:12/17) is conducted by the National Center for Education Statistics (NCES), within the U.S. Department of Education (ED). BPS is designed to follow a cohort of students who enroll in postsecondary education for the first time during the same academic year, irrespective of the date of high school completion. Data from BPS are used to help researchers and policymakers better understand how financial aid influences persistence and completion, what percentages of students complete various degree programs, what are the early employment and wage outcomes for certificate and degree attainers, and why students leave school. The request to conduct the BPS:12/17 full-scale data collection was approved by OMB in December 2016 (1850-0631 v.10) with the latest revisions approved in April 2017 (OMB# 1850-0631 v.11-13). This request is to modify the BPS:12/17 sample and incentive payment options to comply with the requirements of the U.S. Department of the Treasury's Office of Foreign Assets Control (OFAC).</p>
