DEFINITIONS

The following words are bolded and marked by an asterisk (*) wherever they appear in the questionnaire. Please use these definitions as you respond.

Active shooter – an individual actively engaged in killing or attempting to kill people in a confined and populated area; in most cases, active shooters use firearm(s) and there is no pattern or method to their selection of victims.

Arrest – The act of detaining in legal custody. An "arrest" is the deprivation of a person's liberty by legal authority in response to a criminal charge.

At school/at your school – activities happening in school buildings, on school grounds, on school buses, and at places that hold school-sponsored events or activities. Unless otherwise specified, this refers to normal school hours or to times when school activities/events were in session.

Bullying – any unwanted aggressive behavior(s) by another youth or group of youths that involves an observed or perceived power imbalance and is repeated multiple times or is highly likely to be repeated. Bullying occurs among youth who are not siblings or current dating partners.

Cyberbullying – bullying that occurs when willful and repeated harm is inflicted through the use of computers, cell phones, or other electronic devices.

Diagnostic mental health assessment – an evaluation conducted by a mental health professional that identifies whether an individual has one or more mental health diagnoses. This is in contrast to an educational assessment, which does not focus on clarifying a student's mental health diagnosis.

Evacuation – a procedure that requires all students and staff to leave the building. While evacuating to the school's field makes sense for a fire drill that only lasts a few minutes, it may not be an appropriate location for a longer period of time. The evacuation plan should encompass relocation procedures and include backup buildings to serve as emergency shelters, such as nearby community centers, religious institutions, businesses, or other schools. Evacuation also includes "reverse evacuation," a procedure for schools to return students to the building quickly if an incident occurs while students are outside.

Firearm/explosive device – any weapon that is designed to (or may readily be converted to) expel a projectile by the action of an explosive. This includes guns, bombs, grenades, mines, rockets, missiles, pipe bombs, or similar devices designed to explode and capable of causing bodily harm or property damage.

Gang – an ongoing loosely organized association of three or more persons, whether formal or informal, that has a common name, signs, symbols, or colors, whose members engage, either individually or collectively, in violent or other forms of illegal behavior.

Gender identity – means one's inner sense of one's own gender, which may or may not match the sex assigned at birth. Different people choose to express their gender identity differently. For some, gender may be expressed through, for example, dress, grooming, mannerisms, speech patterns, and social interactions. Gender expression usually ranges between masculine and feminine, and some transgender people express their gender consistent with how they identify internally, rather than in accordance with the sex they were assigned at birth.

Harassment – conduct that is unwelcome and denies or limits a student's ability to participate in or benefit from a school's education program. All students can be victims of harassment and the harasser can share the same characteristics of the victim. The conduct can be verbal, nonverbal, or physical and can take many forms, including verbal acts and name-calling, as well as non-verbal conduct, such as graphic and written statements, or conduct that is physically threatening, harmful, or humiliating.

Hate crime – A committed criminal offense that is motivated, in whole or in part, by the offender's bias(es) against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity; also known as bias crime.

Lockdown – a procedure that involves occupants of a school building being directed to remain confined to a room or area within a building with specific procedures to follow. A lockdown may be used when a crisis occurs outside of the school and an evacuation would be dangerous. A lockdown may also be called for when there is a crisis inside and movement within the school will put students in jeopardy. All exterior doors are locked and students and staff stay in their classrooms.

Mental health disorders – collectively, all diagnosable mental disorders or health conditions that are characterized by alterations in thinking, mood, or behavior (or some combination thereof) associated with distress and/or impaired functioning.

Mental health professionals – mental health services are provided by several different professions, each of which has its own training and areas of expertise. The types of licensed professionals who may provide mental health services include psychiatrists, psychologists, psychiatric/mental health nurse practitioners, psychiatric/mental health nurses, clinical social workers, and professional counselors.

DEFINITIONS – Continued

The following words are bolded and marked by an asterisk (*) wherever they appear in the questionnaire. Please use these definitions as you respond.

Physical attack or fight – an actual and intentional touching or striking of another person against his or her will, or the intentional causing of bodily harm to an individual.

Rape – forced sexual intercourse (vaginal, anal, or oral penetration). This includes sodomy and penetration with a foreign object. All students, regardless of sex or gender identity, can be victims of rape. [Counts of attempted rape should be added to counts of rapes in your reporting of item 30a.]

Restorative circle – a formal mediation process led by a facilitator that brings affected parties of a problem together to explore what happened, reflect on their roles, find a solution, and ultimately restore harmony to individual relationships and the larger community.

Robbery (taking things by force) – the taking or attempting to take anything of value that is owned by another person or organization, under confrontational circumstances, by force or threat of force or violence and/or by putting the victim in fear. A key difference between robbery and theft/larceny is that robbery involves a threat or assault.

School Resource Officer (SRO) – a career sworn law enforcement officer with arrest authority who has specialized training and is assigned to work in collaboration with school organizations.

Sexual assault – an incident that includes threatened rape, fondling, indecent liberties, or child molestation. All students, regardless of sex or gender identity, can be victims of sexual assault. Classification of these incidents should take into consideration the age and developmentally appropriate behavior of the offender(s).

Sexual harassment – conduct that is unwelcome, sexual in nature, and denies or limits a student's ability to participate in or benefit from a school's education program. All students, regardless of sex or gender identity, can be victims of sexual harassment, and the harasser and the victim can be of the same sex. The conduct can be verbal, nonverbal, or physical and can take many forms, including verbal acts and name-calling, as well as non-verbal conduct, such as graphic and written statements, or conduct that is physically threatening, harmful, or humiliating.

Sexual misconduct – Any act, including, but not limited to, any verbal, nonverbal, written or electronic communication or physical activity, directed toward or with a student regardless of the age of the student that is designed to establish a romantic or sexual relationship with the student. School staff have power over students by virtue of their position, thus student-staff relationships are not equal and students cannot be consenting parties to romantic or sexual relationships.

Sexual orientation – means one's emotional or physical attraction to the same and/or opposite sex.

Shelter-in-place – a procedure similar to a lockdown in that the occupants are to remain on the premises; however, shelter-in-place is designed to use a facility and its indoor atmosphere to temporarily separate people from a hazardous outdoor environment. Everyone would be brought indoors and building personnel would close all windows and doors and shut down the heating, ventilation, and air conditioning system (HVAC). This would create a neutral pressure in the building, meaning the contaminated air would not be drawn into the building.

Special education student – a child with a disability, defined as mental retardation, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), serious emotional disturbance, orthopedic impairments, autism, traumatic brain injury, other health impairments, or specific learning disabilities, who needs special education and related services and receives these under the Individuals with Disabilities Education Act (IDEA).

Specialized school – a school that is specifically for students who were referred for disciplinary reasons, although the school may also have students who were referred for other reasons. The school may be at the same location as your school.

Theft/larceny (taking things worth over \$10 without personal confrontation) – the unlawful taking of another person's property without personal confrontation, threat, violence, or bodily harm. This includes pocket picking, stealing a purse or backpack (if left unattended or no force was used to take it from owner), theft from a building, theft from a motor vehicle or of motor vehicle parts or accessories, theft of a bicycle, theft from a vending machine, and all other types of thefts.

Threat assessment team – a formalized group of persons who meet on a regular basis with the common purpose of identifying, assessing, and managing students who may pose a threat of targeted violence in schools.

Treatment – a clinical intervention addressed at lessening or eliminating the symptoms of a mental health disorder. This may include psychotherapy, medication treatment, and/or counseling.

Vandalism – the willful damage or destruction of school property, including bombing, arson, graffiti, and other acts that cause property damage. This includes damage caused by computer hacking.

Violence – actual, attempted, or threatened fight or assault.

Weapon – any instrument or object used with the intent to threaten, injure, or kill. This includes look-alikes if they are used to threaten others.

SURVEY INSTRUCTIONS:

- For most questions, please mark the box that best reflects your school's circumstances. Please mark your response with an "X".
- Some questions ask for counts or percents of items. Please place an "X" in the None box, rather than leaving the item blank, if the number of such items at your school is zero.
- It is not necessary to consult any records for items 9 and 44. Please provide estimates for these questions.
- Definitions are available for many terms on pages 2 and 3. Defined terms are bolded and marked with an asterisk (*) throughout the survey.
- Some questions refer to the 2017–18 school year. Please report for the school year to date.
- Please have this questionnaire filled out by the person most knowledgeable about school crime and policies to provide a safe environment.
- Please keep a copy of the completed questionnaire for your records.

WHERE SHOULD I RETURN MY COMPLETED QUESTIONNAIRE?

Please return your completed questionnaire in the enclosed postage-paid envelope or mail it to:

U.S. Census Bureau ATTN: DCB/PCSPU, Building 60A 1201 E. 10th Street Jeffersonville IN 47132-0001

If you have any questions about this questionnaire, please contact the U.S. Census Bureau at: 1-888-595-1332 or at ssocs@census.gov.

Paperwork Burden Statement

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0761. The time required to complete this information collection is estimated to average 53 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate, suggestions for improving this collection, or comments or concerns about the contents or the status of your individual submission of this questionnaire, please e-mail: ssocs@census.gov, or write directly to: School Survey on Crime and Safety (SSOCS), National Center for Education Statistics, PCP, 550 12th Street SW, #4012, Washington, DC 20202.

- 38. During the 2017–18 school year, how many students were involved in committing the following offenses, and how many of the following disciplinary actions were taken in response?
 - if none, please place an "X" in the None box.

Please follow these guidelines when determining the number of offenses and disciplinary actions:

- If more than one student was involved in an incident, please count each student separately when providing the number of disciplinary actions.
- If a student was disciplined more than once, please count each offense separately (e.g., a student who was suspended five times would be counted as five suspensions).
- if a student was disciplined in two different ways for a single infraction (e.g., the student was both suspended and referred to counseling), **count only the most severe disciplinary action that was taken.**
- If a student was disciplined in one way for multiple infractions, record the disciplinary action for only the most serious offense.
