

Treasury previously analyzed the potential burdens associated with the 2017 data call. See 81 FR 95310, 95312 (December 27, 2016). The information sought by Treasury comprises data elements that insurers currently collect or generate, although not necessarily grouped together the way in which insurers currently collect and evaluate the data. Based upon insurer submissions to the 2017 data call, Treasury estimates that for purposes of the 2018 data call, approximately 100 Program participants will be required to submit the “Insurer (Non-Small) Groups or Companies” data collection form, 200 Program participants will be required to submit the “Small Insurer” form, 400 Program participants will be required to submit the “Captive Insurer” form, and 25 Program participants will be required to submit the “Alien Surplus Lines Insurers” form.

Each set of reporting templates is expected to incur a different level of burden. The changes to the proposed data reporting elements in 2018 are not anticipated to have a material impact on Treasury’s prior burden estimates. Treasury anticipates approximately 75 hours will be required to collect, process, and report the data for each non-small insurer, approximately 25 hours will be required to collect, process, and report data for each small insurer, and 50 hours will be required to collect, process, and report data for each captive insurer and alien surplus lines insurer. Due to the proposed consolidation of the separate federal and state data calls, however, the total burden upon reporting insurers overall (once state and federal obligations are accounted for) will be materially reduced for most insurers.

Assuming this breakdown, and when applied to the number of reporting insurers anticipated in light of the experience of the 2017 data call, the estimated annual burden would be 33,750 hours ((100 insurers × 75 hours) + (200 insurers × 25 hours) + (400 insurers × 50 hours) + (25 insurers × 50 hours)). At a blended, fully loaded hourly rate of \$85, the cost would be \$2,868,750 across the industry as a whole, or \$6,375 per non-small insurer, \$2,125 per small insurer, and \$4,250

each per captive insurer or alien surplus lines insurer.
