

hearing, or to participate if one is requested, must submit a written request to the Assistant Secretary for Enforcement and Compliance. All documents must be filed electronically using ACCESS which is available to registered users at <http://access.trade.gov>. An electronically filed request must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time, within 30 days after the date of publication of this notice.⁶ Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those raised in the respective case briefs.

The Department intends to issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(1).

Assessment Rates

Upon issuance of the final results, the Department shall determine and U.S. Customs and Border Protection (CBP) shall assess antidumping duties on all appropriate entries covered by this review. If TFM's weighted-average dumping margin is above *de minimis* in the final results of this review, we will calculate importer-specific assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for each importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1).⁷ If TFM's weighted-average dumping margin continues to be zero or *de minimis* in the final results of review, we will instruct CBP not to assess duties on any of its entries in accordance with the *Final Modification for Reviews*.⁸

For entries of subject merchandise during the POR produced by TFM for which it did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

⁶ See 19 CFR 351.310(c).

⁷ In these preliminary results, the Department applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012) (*Final Modification for Reviews*).

⁸ See *Final Modification for Reviews*, 77 FR 8102.

We intend to issue instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of OBAs from Taiwan entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for TFM will be equal to the weighted-average dumping margin established in the final results of this administrative review; (2) for merchandise exported by manufacturers or exporters not covered in these reviews but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in these reviews, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 6.19 percent.⁹ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these results in accordance with sections 751(a)(1) and 777(i)(1) of the Act, and 19 CFR 351.213(h)(1).

Dated: May 31, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Alaska Interagency Electronic Reporting System (IERS)

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before August 7, 2017.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at pracomments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Suja Hall, (907) 586-7462.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for an extension of a current information collection.

⁹ The all-others rate established in the *Order*.

eLandings, seaLandings, and tLandings are data entry components of the Alaska Interagency Electronic Reporting System (IERS), which is a collaborative program run by the National Marine Fisheries Service (NMFS) Alaska Regional Office, the Alaska Department of Fish and Game (ADF&G), and the International Pacific Halibut Commission (IPHC). eLandings, seaLandings, and tLandings provide the Alaska fishing industry with a consolidated electronic means of reporting production and landings of commercial fish and shellfish to multiple management agencies with a single reporting system. NMFS collects groundfish harvest and production data for fishery management plan species in the Exclusive Economic Zone (EEZ). ADF&G collects harvest data for groundfish species taken in State of Alaska waters and has responsibility for some fisheries in the EEZ, such as lingcod and black rockfish. ADF&G and NMFS cooperatively manage the Crab Rationalization Program fisheries in the Bering Sea and Aleutian Islands Management Area. NMFS and IPHC cooperatively manage Individual Fishing Quota (IFQ) for Pacific halibut and sablefish in both State waters and in the EEZ.

eLandings is a web-based application used by vessels and processors to report groundfish, crab, Pacific halibut, and sablefish production and landings data. Processors with limited internet access, such as the at-sea fleet, use eLandings client desktop software named seaLandings, provided by NMFS, and submit the required reports as email attachments or via direct transmit over the Internet. Once data are entered and submitted, the User must print daily through eLandings each landing report, production report, logbook report, and if an IFQ delivery, each IFQ receipt. The parties to the information must acknowledge the accuracy of the printed reports by signing them and entering the date signed. In addition, the User must make the printed copies available upon request of NMFS observers and authorized officers.

tLandings is a software application for tender vessels that records landings data on a USB flash drive and creates a printable fish ticket. The fish ticket is printed on board the tender vessel and signed by the delivering catcher vessel operator. When the tender vessel delivers to the shoreside processor, the shoreside processor uploads the landing information on the USB flash drive into eLandings.

Some of the benefits of IERS include improved data quality, automated processing of data, improved process for

correcting or updating information, availability of more timely data for fishery managers, and reduction of duplicative reporting of similar information to multiple agencies.

II. Method of Collection

Methods of submittal include online and email. Clients with limited internet access, such as the at-sea fleet, use seaLandings client desktop software and submit landing reports as email attachments or over the Internet. The vessels use satellite communications, which may or may not include telephone, Internet, text messaging, email, and email attachment capabilities.

III. Data

OMB Control Number: 0648–0515.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit; individuals or households.

Estimated Number of Respondents: 273.

Estimated Time per Response: 35 minutes for a tLandings landing report; 30 minutes for catcher/processor eLandings landing report; 18 minutes for active response and 5 minutes for inactive response for pilot catcher vessel trawl electronic logbook (eLog); 15 minutes for active response and 5 minutes for inactive response for catcher vessel eLog, catcher/processor eLog and mothership eLog; 15 minutes for eLandings registration; 10 minutes for eLandings/seaLandings landing report; and 20 minutes for at-sea response; and 10 minutes for shoreside and stationary floating processor response for eLandings/seaLandings production report.

Estimated Total Annual Burden Hours: 16,865.

Estimated Total Annual Cost to Public: \$2,870 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques

or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: June 1, 2017.

Sarah Brabson,

NOAA PRA Clearance Officer.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

Vessel Monitoring System (VMS) units integrate global positioning system (GPS) and communications electronics into a single, tamper-resistant package to automatically determine the vessel's position several times per hour. The units can be set to transmit a vessel's location periodically and automatically to an overhead satellite in real time. In most cases, the vessel owner is unaware
